RUTHERFORD

Nurserymen Since 1898

NEW JERSEY

A partial view of our exhibition garden at New York World's Fair, 1939

Visitors to the New York World's Fair are cordially invited to visit our garden—a part of the Horticultural Section —GARDENS ON PARADE.

You will enjoy this garden—so modern in trend—so distinctly different in design—yet surprisingly practical. Bold masses of Evergreens, Rhododendrons, Azaleas, Flowering Trees and Shrubs, Perennials and Roses arranged in keeping with the World's Fair theme.

A staff of trained men and women will be in attendance to help make your visit more enjoyable.

HOW TO REACH OUR NURSERIES. Visitors are always welcome. We are located within 9 miles of Times Square, New York City. Easily reached by following Routes 1, 6 and 2 from the new George Washington Bridge. Use Routes Nos. 1 and 3 from the Holland and Lincoln Tunnels. Intercity Transportation Company buses from the rear of Astor Hotel, 44th Street and Broadway. The Carlton Hill Station on the Erie Railroad from New York City is a five-minute walk from our office.

Our General Catalogue

A 48 page book, containing gorgeous color reproductions of many items you may want. Here are a few of them.

ROSES. Hybrid Teas, Hybrid Perpetuals, Polyanthas, Florabundas, Climbers, and many other types and classes.

VINES and CLIMBERS. Ampelopsis, Clematis, Euonymus, Ivies, Honeysuckles, Wisterias, etc.

HARDY PERENNIALS. The new introductions and of course, the old favorites.

ROCK GARDEN PLANTS. A complete selection of plants for use in any arrangement.

RHODODENDRONS. Full and complete information on sizes, colors and kinds.

6 to 8 Ft. _____	9.00	81.00
10 to 12 Ft. _____	20.00	180.00

JUNIPERUS CHINENSIS

JUNIPERUS. THE JUNIPERS.

Junipers vary greatly in habit from tall pyramidal trees to low prostrate or trailing shrubs. Foliage differs from sharp needles to the soft scale-like leaves.

The erect growing species, mostly pyramidal and columnar in habit, are decorative as single specimens on a lawn, or in groups. Valuable for formal gardens, and are good substitutes for the classic Cypress in severe climates. The low prostrate Junipers are suited to covering rocky slopes or sandy banks.

Junipers thrive best in sandy and loamy, moderately moist soil, and will grow in dry, rocky or gravelly ground. They prefer sunny, open locations. Used as hedges, shelters or windbreaks. Satisfactory in seaside plantings.

JUNIPERUS CHINENSIS. (15 to 20 ft.)

Chinese Juniper

An evergreen conifer, native of the Himalayas and China. A columnar tree, retaining its rich, green color during winter. Hardy, likes a well-drained soil.

	Each	Ten
4 to 5 Ft.	5.00	
6 to 8 Ft.	9.00	81.00

J. CHINENSIS COLUMNARIS. (18 to 23 ft.)

Columnar Chinese Juniper

A good specimen. Grows to a slender tapering column, silvery green in color. Close growth, excellent for accent points in a landscape.

6 to 8 Ft.	9.00	81.00
10 to 12 Ft.	18.00	

J. CHINENSIS PFITZERIANA. (5 to 6 ft.)

Pfitzer Juniper

A popular, handsome evergreen. Spreading bush of dense, feathery foliage. Thrives under city conditions.

	Each	Ten
4 to 5 Ft. diam.	9.00	
5 to 6 Ft. diam.	12.50	

J. COMMUNIS AUREA. (2 to 2½ ft.)

Golden Common Juniper

Spreading form used in foundation plantings. Golden mat of foliage.

15 to 18 inch. spread	1.75	15.00
-----------------------------	------	-------

J. COMMUNIS DEPRESSA PLUMOSA.*

(1 to 2 ft.)

Plumed Spreading Juniper

Quite hardy. Branches spreading along the ground. In the fall the silvery green foliage is tinted with lilac and lavender, providing an interesting color relief.

15 to 18 Inch diam.	1.75	
1½ to 2 Ft. diam.	2.25	
2 to 2½ Ft. diam.	2.75	
3 to 4 Ft. diam.	4.00	

JUNIPERUS COMMUNIS DEPRESSA

J. COMMUNIS HIBERNICA. (7 to 8 ft.)

Irish Juniper

Grows into a slender spire. Foliage grey green. A favorite in landscape work.

2 to 2½ Ft.	1.75	16.00
------------------	------	-------

J. EXCELSA STRICTA. (5 to 6 ft.)

Spiny Greek Juniper

A stiff, erect, needle-like tree with silvery green foliage. For formal accents.

12 to 15 In.90	8.00
15 to 18 In.	1.25	11.00

J. SABINA. (5 to 6 ft.)

Savin Juniper

Vase shaped, low growing, with dark green, dense foliage. Excellent as border plant among larger evergreens and in foundation plantings. Can stand drought or heat, but does not like damp, wet location.

2 to 2½ Ft. spread	2.25	20.00
3 to 4 Ft. spread	4.50	

JUNIPERUS VIRGINIANA CANNARTI

J. SQUAMATA. (1 to 1½ ft.) Scaly-leaf Juniper

A low prostrate evergreen with blue-green foliage clinging to the up-turned branchlets. Hardy and good for rock-garden.

	Each	Ten
15 to 18 In. spread	2.00	18.00

J. SQUAMATA ARGENTEA-VARIEGATA.

(1 to 1½ ft.) Variegated Scaly Juniper

Similar to J. Squamata with green foliage, sprayed creamy white.

12 to 15 In. spread	1.50	13.50
18 to 24 In. spread	2.50	22.50

J. VIRGINIANA BURKI GLAUCA. (20 to 25 ft.)

Burk's Silver Cedar

Its columnar growth and steel blue foliage make this an outstanding and valuable tree.

3 to 4 Ft.	3.75	
5 to 6 Ft.	6.50	60.00
8 to 10 Ft.	17.50	160.00

J. VIRGINIANA CANNARTI. (18 to 23 ft.)

Cannart Cedar

The most stately Cedar. A narrow columnar tree with dark green foliage. A light shearing in spring will keep it to any desired size. Birds are fond of the blue colored fruit.

3 to 4 Ft.	4.50	40.00
5 to 6 Ft.	8.25	75.00

OUR ROSE AND PERENNIAL CATALOGUE

A copy of this beautifully illustrated book will be sent at your request.

JUNIPERUS VIRGINIANA GLAUCA

J. VIRGINIANA GLAUCA. (20 to 25 ft.)

Silver Red Cedar

One of the best Cedars. Glauous blue color and cone-shaped habit in growth. As specimen or in mixed planting, it supplies a lovely color contrast.

	Each	Ten
4 to 5 Ft.	4.50	
6 to 7 Ft.	8.00	72.00

J. VIRGINIANA GLOBOSA. (3 to 4 ft.)

Globe Cedar

A dwarf cedar with light green foliage developing into a perfect globe without shearing. Used as formal accents.

2 to 2½ Ft.	6.00	54.00
3 to 4 Ft.	9.00	

J. VIRGINIANA KETELEERI. (16 to 18 ft.)

Keteleer's Cedar

Compact, thick, dark green pyramid. Displays decorative, slate-blue berries in autumn. A group planting subject.

6 to 7 Ft.	8.00	72.00
8 to 10 Ft.	15.00	

J. VIRGINIANA SCHOTTI. (18 to 20 ft.)

Schott's Red Cedar

A medium grower forming a compact, symmetrical column of light, feathery yellow-green foliage. Tolerates shearing and retains a good color thru winter.

4 to 5 Ft.	6.00	54.00
5 to 6 Ft.	7.50	70.00

LARIX LEPTOLEPIS (Kaempferi).

(50 to 60 ft.)

Japanese Larch

A deciduous or leafless conifer. Pyramidal form with silvery green needles, turning a golden yellow in fall. Considered the finest of the Larch family. A desirable landscape subject.

6 to 8 Ft.	6.50	60.00
-----------------	------	-------

KOSTER'S BLUE SPRUCE

(PICEA PUNGENS KOSTERI)

THE sparkle and brilliance of this lovely tree will beautify and adorn any location. Interesting and attractive throughout the entire year, it's pleasing blue color blends harmoniously.

The trees we offer are all grafted and carefully grown to insure uniform color.

Prices are most attractive.

	Each	Ten
3 to 4 Ft.	4.50	41.00
5 to 6 Ft.	8.00	72.00
7 to 8 Ft.	17.50	160.00
10 to 12 Ft.	40.00	

PICEA. The Spruces.

In addition to many practical kinds, the Spruces include quite a few ornamental and unusual varieties. Foliage colors vary from dark green to a blue or silvery green, and some with golden hues. Hardy, rugged, requiring little attention, the Spruces present a selection from actual dwarf to large, majestic trees.

PICEA GREGORIANA

P. EXCELSA CLANBRASILIANA.* (4 to 5 ft.) Barry Spruce

Forms a broad mass of light green foliage. Suitable for the rock-garden. Dwarf and compact

	Each	Ten
2½ to 3 Ft. diam.	8.50	
3 to 4 Ft. diam.	11.00	

P. EXCELSA ECHINAEFORMIS.*

A dwarf form of Spruce with stiff spiny radiating needles. Used in rock-gardens.

3 to 4 Ft.	4.00
5 to 6 Ft.	7.00

P. EXCELSA GREGORYANA.* (2 ft.)

Gregory Spruce

A midget of squat, globe shape.

1½ to 2 Ft. diam.	6.00	
2½ to 3 Ft. diam.	10.00	90.00

P. EXCELSA PENDULA. (20 to 25 ft.)

Weeping Norway Spruce

Long pendulous branches sweeping toward the ground.

3 to 4 Ft.	8.00
6 to 7 Ft.	14.00

P. EXCELSA PYRAMIDALIS. (40 to 50 ft.)

Pyramidal Norway Spruce

Symmetrical, pyramidal, almost fastigiate growth.

5 to 6 Ft.	9.00
-----------------	------

PICEA ORIENTALIS

P. EXCELSA REPENS.*

Creeping Norway Spruce

Grows close to the ground as the name implies. For ground-cover and rock-gardens.

	Each	Ten
2 to 2½ Ft. diam.	7.50	
2½ to 3 Ft. diam.	9.00	

P. GLAUCA CONICA.* (5 to 6 ft.)

Dwarf Alberta Spruce

From the Canadian Rockies. A dwarf, it is a perfect miniature of an old forest tree, dense conical shape. It is covered with light green, tiny needles of fine texture. Fine for formal accents and rock-gardens.

2 to 2½ Ft.	4.50
------------------	------

P. MARIANA DOUMETI.*

Doumet Spruce

The most ornamental dwarf form of the Black Spruce, the crowded branches making a dense mat.

3 to 3½ Ft. diam.	10.00
------------------------	-------

P. OMORIKA. (60 to 80 ft.)

Serbian Spruce

"King of Spruces." Dense pyramidal growth. Needles have a blue cast underneath.

3 to 4 Ft.	7.50
6 to 7 Ft.	19.00

P. ORIENTALIS. (60 to 70 ft.)

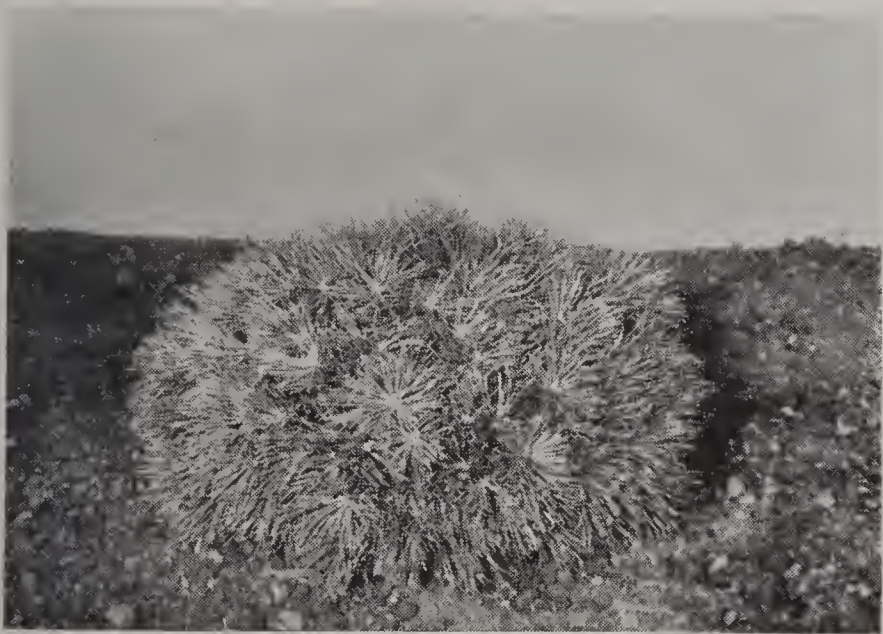

Oriental Spruce

Wide-spreading, beautiful dark foliage. A truly lovely evergreen.

3 to 4 Ft.	7.50
6 to 7 Ft.	15.00

PINUS. The Pines.

In the Pine family we have dwarf varieties, those of medium height, and the giant trees found towering in natural surroundings. The pines are exceptionally hardy, and sturdy.

PINUS MONTANA MUGHUS

P. MONTANA. (10 to 12 ft.)

Swiss Mountain Pine

Short, dull green thick needles, spreading branches. Faster and looser growth than P. Montana Mughus. Fine for rocky slopes.

	Each	Ten
3 to 3½ Ft.	6.00	54.00
4 to 5 Ft.	11.00	100.00

P. MONTANA MUGHUS.* (3 to 4 ft.)

Mugho Pine

Compact, dwarf evergreen. The new growth in spring resembles lighted candles, completely covering the entire plant. Useful for rock planting and foundation work.

1½ to 2 Ft. diam.	3.00	27.00
2½ to 3 Ft. diam.	5.00	45.00
4 to 5 Ft. diam.	12.50	110.00

P. NIGRA. (50 to 60 ft.)

Austrian Pine

A robust stately tree of rapid growth, very hardy. Stiff, dark green leaves in pairs.

3 to 4 Ft.	3.00	27.00
5 to 6 Ft.	7.00	63.00
8 to 10 Ft.	19.00	170.00

P. THUNBERGI. (60 to 80 ft.)

Japanese Black Pine

Hardy as far north as Canada. Picturesque, irregular. Retains fresh, dark green appearance during winter. Good for seashore planting.

4 to 5 Ft.	5.00	45.00
6 to 8 Ft.	10.00	90.00

PSEUDOTSUGA DOUGLASI. (70 to 80 ft.)

Douglas Fir; False Hemlock

Light green to blue-green foliage. Useful as a specimen or for screening.

	Each	Ten
8 to 10 Ft.	15.00	
10 to 12 Ft.	18.00	
12 to 14 Ft.	25.00	
12 to 15 In. diam.	2.25	20.00
1½ to 2 Ft. diam.	3.75	34.00
4 to 5 Ft. high	15.00	
6 to 7 Ft. high	25.00	

TAXODIUM DISTICHUM. (75 to 100 ft.)

Bald Cypress

Not evergreen, yet is a conifer. Has appearance of an evergreen during summer. Sheds leaves in fall. The beautiful, soft needle-like foliage is fern-like. Becomes a stately, slender, tall tree.

6 to 8 Ft.	8.25
8 to 10 Ft.	12.50
10 to 12 Ft.	15.00

SCIADOPITYS VERTICILLATA. (18 to 20 ft.)

Umbrella Pine

Long, shining, green leaves. The foliage in parasol-like whorls, gives this variety a distinct individuality. It is unique and beautiful on the lawn.

15 to 18 In. diam.	3.25	30.00
2 to 2½ Ft. diam.	5.25	
5 to 6 Ft. high	18.00	

SCIADOPITYS VERTICILLATA

TAXUS — THE YEWS

These dependable evergreens are varied in form, rich dark green in color, and will adapt and acclimate themselves to any location.

They are rarely affected with pests, nor do they become unsightly with age. An occasional shearing, together with a feeding of cow manure will keep them looking best.

Ideally used in borders, foundation plantings, massed evergreen effects in the border, as specimens or hedges.

T. BACCATA REPANDENS. (2 to 3 ft.)

Spreading English Yew

A prostrate variety with low arching branches and slender dark green foliage. Retains perfect color through winter. A specimen or for covering slopes.

	Each	Ten
1½ to 2 Ft. spread	3.75	34.00
2 to 2½ Ft. spread	5.00	45.00

T. CUSPIDATA. (12 to 15 ft.)

Spreading Japanese Yew

A hardy, dependable tree of spreading habit. Its branches bear beautiful dark green needles and are covered with bright red berries in autumn. Our plants, sheared many times, are compact. Will thrive equally well in sun or semi-shade. A desirable tree for foundation plantings, groups, formal gardens or rockeries.

1½ to 2 Ft. spread	2.75	24.00
2 to 2½ Ft. spread	3.75	34.00
2½ to 3 Ft. spread	5.50	50.00
3 to 3½ Ft. spread	7.50	68.00
4 to 5 Ft. spread	15.00	135.00
5 to 6 Ft. spread	20.00	180.00

T. CUSPIDATA ANDERSONI. (10 to 14 ft.)

Anderson Yew

A hardy Yew, definitely upright and columnar habit.

3 to 4 Ft.	11.00	100.00
-----------------	-------	--------

T. CUSPIDATA BROWNI. (5 to 8 ft.)

Brown's Yew

Compact, bushy with a rough globular outline. Recommended as a substitute for Boxwood specimens where latter is not hardy.

1½ to 2 Ft.	4.50	41.00
------------------	------	-------

T. CUSPIDATA NANA. (5 to 6 ft.)

(Cuspidata brevifolia) Dwarf Japanese Yew

A slow growing, spreading, attractive variety. Foliage dark green. Its irregular habit of growth enhances any planting. One of the best Yews for a rock garden.

	Each	Ten
15 to 18 In. spread	3.75	34.00
1½ to 2 Ft. spread	4.50	41.00
2 to 2½ Ft. spread	7.00	63.00
2½ to 3 Ft. spread	10.00	
3 to 4 Ft. spread	15.00	

T. CUSPIDATA OVATA. (12 to 15 ft.)

Ovate Japanese Yew

Of compact growth, the very dark green foliage is broader and larger than the average Taxus. Grows into a rotund heavy set column. An asset to any landscape.

2 to 2½ Ft.	4.00	36.00
3 to 3½ Ft.	7.50	68.00

T. MEDIA HATFIELDI. (12 to 15 ft.)

Hatfield Upright Yew

A bushy grower, forming a broad blunt column.

1½ to 2 Ft.	2.75	24.00
2½ to 3 Ft.	6.00	54.00
4 to 5 Ft., bushy specimen	19.00	170.00

T. MEDIA WARDI. (6 to 8 ft.)

Ward's Yew

Dark green foliage, compact in habit and one of the best spreading Yews.

2 to 2½ Ft. spread	3.75	35.00
2½ to 3 Ft. spread	5.50	52.50
3 to 3½ Ft. spread	8.00	70.00
3½ to 4 Ft. spread specimen	14.00	
4 to 4½ Ft. spread specimen	17.50	

T. CUSPIDATA CAPITATA. Upright Yew

Unquestionably the best of the Yews. Hardy, adaptable to any location; shears to any desired effect, transplants easily; fine as a lawn specimen, hedge, or in mixed plantings. Dark green foliage. Our Upright Yews, each with an individual leader are the best obtainable.

	Each	Ten	100
15 to 18 In.	2.25	20.00	150.00
1½ to 2 Ft.	3.00	22.50	190.00
2 to 2½ Ft.	3.50	27.50	250.00
2½ to 3 Ft.	4.25	34.00	310.00
3 to 3½ Ft.	5.00	44.00	400.00
3½ to 4 Ft.	6.00	53.00	450.00
4 to 4½ Ft.	6.75	60.00	525.00
4½ to 5 Ft.	9.00	75.00	675.00

Bushy Specimens

5 to 6 Ft.	13.50	120.00	1050.00
6 to 7 Ft.	22.50	190.00	
7 to 8 Ft.	37.50		

Larger sizes priced upon application.

Yews are definitely the hardiest of the better evergreens, withstanding extremely low temperatures.

The foliage is dark green during the whole year. It will not “brown” in winter.

While the Yews make a superb hedge, they have many interesting features when grouped with Rhododendron or other broad-leaved evergreens.

Yews may be clipped to any desired shape, and in any form are equally pleasing.

Yews are not particular as to soil or location, requiring only moderate feeding and cultivating until established.

In a general group the color-tones of the Yew tend to form a landscape picture that grows in value each year.

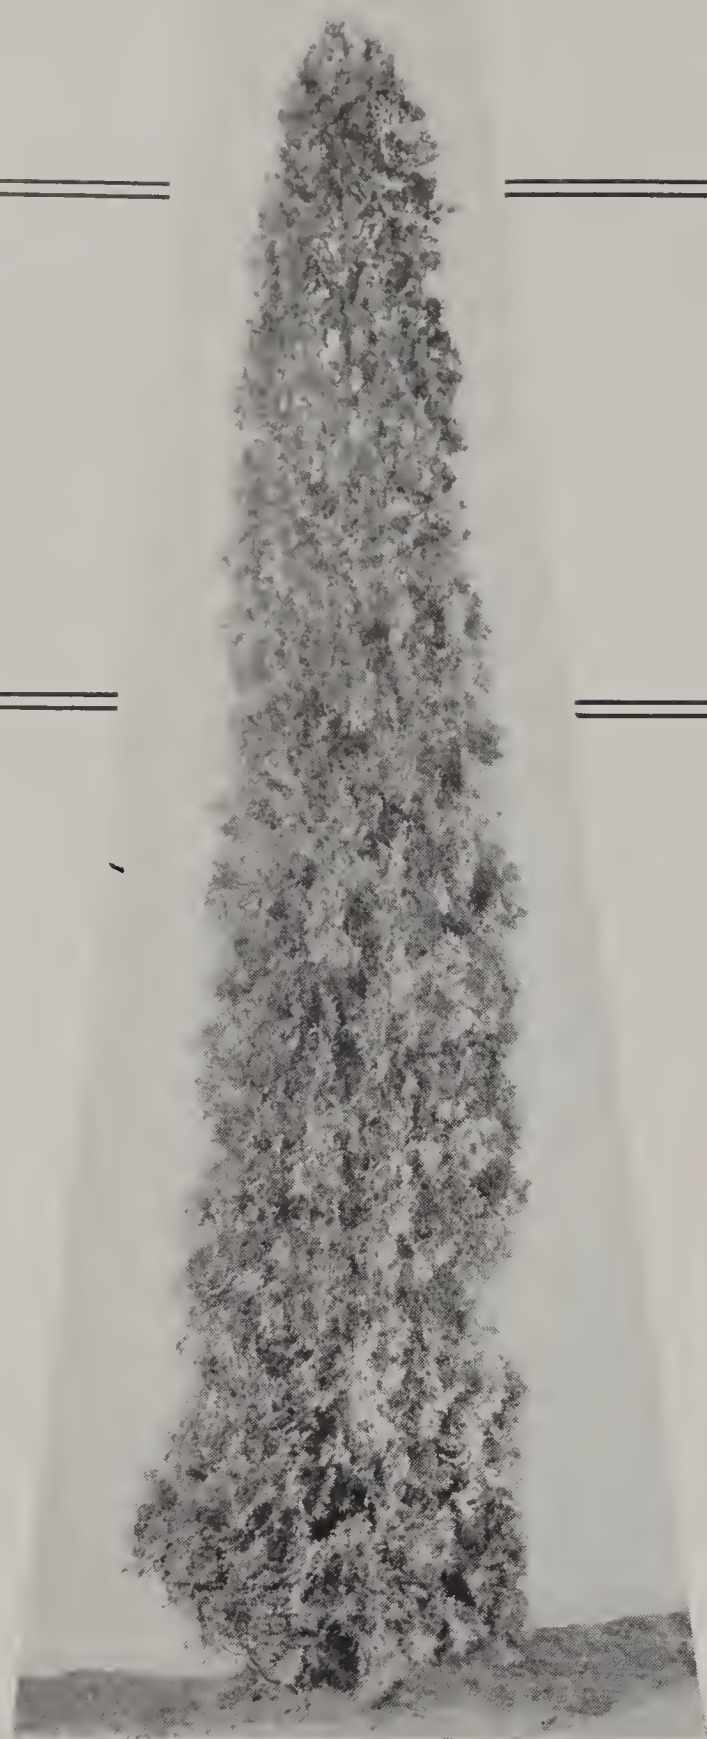

UPRIGHT YEW HEDGES

We have several nicely sheared and well established hedges of Upright Yew in varied heights. If you need an unusual hedge for immediate effect, any one of these hedges will suffice. Photographs and prices per running foot will be submitted.

ARBORVITAE

FOR THE "GARDEN OF TOMORROW"

THUJA. Arborvitae.

The Arborvitae (Thuja) have been garden favorites for many years. They vary greatly in habit, form and color of foliage serving many useful purposes in every garden.

The Arborvitae are hardy, tolerate shearing and do well in average soils.

T. OCCIDENTALIS. (20 to 25 ft.)

American Arborvitae

Fast grower of pyramidal form. Valuable as a hedge plant. Stands trimming nicely.

	Each	Ten
2½ to 3 Ft.	1.50	13.50
3 to 4 Ft.	2.25	20.00
8 to 10 Ft.	9.00	
12 to 14 Ft.	16.00	

T. OCCIDENTALIS GLOBOSA.* (3 to 4 ft.)

Globe Arborvitae

Seems made to order for formal work. Light green foliage.

12 to 15 In.	1.00	9.00
15 to 18 In.	1.35	11.00

T. OCCIDENTALIS B. & A. (14 to 18 ft.)

B. & A. Arborvitae

Showy, bright yellow green throughout the winter, changing to golden yellow in spring. Compact, broad, pyramidal.

2 to 2½ Ft.	1.25	11.50
6 to 8 Ft.	5.50	50.00
8 to 10 Ft.	9.00	80.00
10 to 12 Ft.	12.50	

T. OCCIDENTALIS PYRAMIDALIS.

(20 to 25 ft.)

Pyramidal Arborvitae

Upright, dense, columnar habit.

Foliage light green.

	Each	Ten
2 to 2½ Ft.	1.50	13.50
8 to 10 Ft.	10.00	90.00
10 to 12 Ft.	14.00	125.00

T. OCCIDENTALIS ROSENTHALI.

(20 to 30 ft.)

Rosenthal's Arborvitae

Lustrous, dark green leaves. A columnar form of great merit.

1½ to 2 Ft.	1.80	16.00
4 to 5 Ft.	5.50	50.00
6 to 7 Ft.	9.00	80.00

T. PLICATA ATROVIRENS. (35 to 40 ft.)

(Lobbi Atrovirens) Giant Arborvitae

Glossy fleshy green foliage almost covers the branchlets. Turns bronze in winter.

8 to 10 Ft.	10.00	90.00
12 to 14 Ft.	16.00	140.00

T. STANDISHI. (14 to 18 ft.)

Standish Arborvitae

Of massive, pendulous habit with long, loose branchlets, clothed with large, fleshy foliage. An irregular pyramid form. Unusually hardy.

6 to 8 Ft.	7.00	63.00
8 to 10 Ft.	10.00	90.00

TSUGA CANADENSIS

T. CANADENSIS. (70 to 90 ft.)

Canadian Hemlock

Grows to a beautiful, picturesque specimen or makes a dense hedge of outstanding beauty if sheared lightly each Spring.

	Each	Ten
2½ to 3 Ft.	2.25	20.00
3 to 4 Ft.	3.50	31.00
4 to 5 Ft.	5.50	50.00
5 to 6 Ft.	7.50	68.00
6 to 8 Ft.	10.00	90.00
8 to 10 Ft.	15.00	135.00
10 to 12 Ft.	20.00	180.00
12 to 14 Ft.	27.50	250.00

T. CANADENSIS MICROPHYLLA.

(15 to 20 ft.)

Mountain Hemlock

Originated in Southern Alaska. It is more compact and slower in growth than Canadensis. Upright, compact habit. An interesting form, dark green in color and very rugged.

2 to 2½ Ft.	3.00	27.00
3 to 4 Ft.	7.00	63.00
5 to 6 Ft.	10.00	90.00

T. CANADENSIS PENDULA.* (8 to 10 ft.)

Sargent's Weeping Hemlock

An unusual weeping evergreen for rock-gardens, plantings, or as lawn specimens.

2 to 2½ Ft.	7.00	63.00
3 to 4 Ft. specimen.....	14.00	

TSUGA. The Hemlocks.

The graceful and stately Hemlock is generally considered the most beautiful of the evergreen family. Lacking the stiff, formal appearance of other conifers, unquestionably hardy and requiring few special wants, the Hemlock deserves a place in all garden schemes.

T. CAROLINIANA. (50 to 60 ft.)

Carolina Hemlock

Grows slower than the Canadian Hemlock. Long and yew-like foliage. Its sweeping, pendulous branches are effective in the landscape. Quite hardy and apparently insect-proof.

	Each	Ten
5 to 6 Ft.	7.50	68.00
7 to 8 Ft.	12.00	105.00
8 to 10 Ft.	15.00	135.00

TSUGA CAROLINIANA

POTTED ROSES

Each year, we prepare large quantities of two-year, field-grown Roses in 6 and 7 inch pots. Ready for delivery in May. Send for list.

Hardy EVERGREEN AZALEAS

This group of lovely plants, originating in the Orient, are radiant when in bloom. The lustrous foliage is usually hidden by profuse masses of beautifully colored flowers.

They are not difficult to grow, requiring an acid soil for best performance.

Use in groups, as companions to other broad-leaved evergreens, or in the rock garden.

We grow many varieties of Azaleas not listed here. Send for list and quotations.

A. HINODEGIRI.* (4 to 5 ft. spread)

The popular scarlet-crimson variety. In May its small foliage is covered with a mass of single flowers.

	Each	Ten
10 to 12 In. diam.	1.50	13.50
15 to 18 In. diam.	3.00	27.00
21 to 24 In. diam.	5.25	42.50
2 to 2½ Ft. diam.	6.00	50.00

A. HINOMAYO.* (4 to 5 ft. high)

This is one of the best of the clear pink Azaleas. Blooms in May about the same time as Hinodegiri; lasts slightly longer. An upright grower with almost evergreen foliage. Single flowers.

1½ to 2 Ft. high	3.75	35.00
2 to 2½ Ft. high	5.50	50.00

A. KAEMPFERI.* (4 to 5 ft. high)

A rugged tall growing variety with salmon red flowers blooming in May. Highly recommended for general landscape use. Single.

15 to 18 In. high	2.25	20.00
1½ to 2 Ft. high	3.00	27.00
2 to 2½ Ft. high	4.50	

A. LEDIFOLIA (Indica) ALBA. (5 ft. spread)

A splendid variety. Very hardy—grows about as broad as high. Its large pure white flowers cover the plant about May 15th. One of the best for landscape purposes. Flowers single..

	Each	Ten
12 to 15 In. high	2.25	20.00
15 to 18 In. high	3.00	27.50

A. LEDIFOLIA ROSEA MAGNIFICA.

(4 to 5 ft. spread)

Flowers are creamy-white, with carmine blotches and flakes in throat of flower giving the general appearance of pink at a distance. Blooms appear intermittently through the summer. Single.

1½ to 2 Ft. high	4.00	35.00
2½ to 3 Ft. high	7.00	63.00

A. LEDIFOLIA ROSEA HYBRIDS.

(4 to 5 ft. spread)

These hybrids yield large flowers in shades from rose pink to lilac red. Plants spreading, growing about as broad as high. Single.

1½ to 2 Ft. spread	3.00	27.00
2½ to 3 Ft. spread	6.50	60.00

A. MACRANTHA.* (2½ to 3 ft.)

An Indian Azalea with large, single orange-red flowers about June 10. This late blooming variety gives an extended flowering period. Its habit is low, compact and spreading and is especially good foregrounding taller varieties.

	Each	Ten
10 to 12 In. diam.	1.75	15.00

A. MAXWELLI.* (3 to 4 ft. spread)

Large, single flowers two inches in diameter, glowing deep rose with dark spots. Grows low and broad.

1½ to 2 Ft. diam.	3.50	31.00
------------------------	------	-------

A. MAXWELLI ALBA.* (3 to 4 ft. high)

A snow-white variety of A. Maxwelli. Good bloomer. Single. Very hardy.

15 to 18 In. high	3.00	
-------------------------	------	--

A. PINK BEAUTY. (4 to 5 ft. high)

Large trusses of soft pink, single flowers.

18 to 21 In. diam.	3.75	34.00
-------------------------	------	-------

JAPANESE KURUME AZALEAS

APPLE BLOSSOM.*

A delightful light pink semi-double.

12 to 14 In. diam.	3.25	
14 to 16 In. diam.	4.00	

DAPHNE.

White inside with light lavender edges. Slow, compact grower. Single.

10 to 12 In. diam.	2.25	20.00
-------------------------	------	-------

DAYBREAK.

Single, light pink blooms in dense clusters.

	Each	Ten
8 to 10 In. diam.	1.50	13.50
10 to 12 In. diam.	2.25	20.00
12 to 14 In. diam.	3.00	27.00

FLAME. (4 to 5 ft. high)

Red, suffused with copper shades. Strong, upright grower. Hose in hose flowers.

8 to 10 In. high	1.25	10.00
12 to 15 In. high	2.50	20.00
1½ to 2 Ft. high	4.00	35.00

Broad-Leaved Evergreen Shrubs
Continued on Next Page

AZALEA HINOMAYO

MAUVE BEAUTY.

Medium sized, dainty bloom, a beautiful mauve tint. Blooms freely and profusely. Single.

	Each	Ten
12 to 14 In. diam.	3.00	27.00
14 to 16 In. diam.	3.75	34.00

PEACH BLOW.

Single flowers, the color of peach blossoms, pink with white edging.

10 to 12 In. diam.	2.25	20.00
12 to 14 In. diam.	3.00	

PINK PEARL. (3 ft. spread)

Salmon-rose, hose-in-hose type blooms. Large flowered.

20 to 24 In. diam.	4.50	41.00
2 to 2½ Ft. diam.	5.50	50.00

SNOW. (3 ft. spread)

Large, pure white hose in hose flowers borne profusely in clusters.

10 to 12 In. diam.	2.50	22.50
-------------------------	------	-------

SUNSTAR.

Single, rose-pink flowers with carmine stripe.

12 to 14 In. diam.	3.00	27.00
-------------------------	------	-------

ABELIA GRANDIFLORA. (3 to 4 ft.)
Glossy Abelia

A lovely, dwarf shrub, evergreen in the South. Bears quantities of white and pink Arbutus-like flowers all summer. Recommended for massing in front of their growing evergreen shrubs.

	Each	Ten
12 to 15 In. potgrown plants	.75	7.00
1½ to 2 Ft. extra heavy field-grown plants	1.50	13.50

ARCTOSTAPHYLOS UVA URSI. Bearberry

One of our native ground covers making a mat of grey foliage a few inches high. Bears small flowers followed by large handsome red berries. An acid-loving plant found on our eastern seaboard covering acres of sand-dunes. Seems to thrive equally well in boggy places and on hot dry slopes.

	Each	Ten	100
Potgrown plants	.35	2.50	22.50

BERBERIS — BARBERRY

B. JULIANAE. Wintergreen Barberry

This splendid evergreen shrub with serrated green leaves, yellow flowers and purple fruit is one of the finest evergreen barberries. Strong upright growth, hardy and at home with Rhododendrons, Laurel or other broad-leaved evergreen shrubs.

	Each	Ten
2 to 2½ Ft. B&B	2.25	20.00
3 to 3½ Ft. B&B	3.50	31.00

B. TRIACANTHOPHORA. Three Spine Barberry

Bright green, spiny leaves, white underneath. White flowers tinged with pink are borne in clusters. Blue-black fruits.

15 to 18 In. B&B	1.25	11.00
1½ to 2 Ft. B&B	1.50	13.50

BUXUS—BOXWOOD

BUXUS SEMPERVIRENS. Common Tree Box

Nearly everyone knows boxwood. It is a part of our earliest gardens. The glossy aromatic foliage is usually fresh and green. Especially good for edging, specimen use in formal gardens, tub specimens etc. In exposed positions, it needs some protection in winter.

	Each	Ten	100
6 to 8 In.	.15	1.35	12.00
8 to 10 In.	.22	1.90	17.50
10 to 12 In.	.30	2.75	25.00

B. SEMPERVIRENS MYRTIFOLIA.

One of the hardiest Boxwoods. Grows quite rapidly. Blue-green foliage retains a good color all year. Use in locations where other varieties are not hardy.

6 to 8 In.	.15	1.35	12.00
8 to 10 In.	.22	1.90	17.50

COTONEASTER. See Deciduous Flowering Shrubs on Page 31.

ELEAGNUS PUNGENS. (6 ft.)
Thorny Eleagnus

A Japanese introduction eventually growing to 6 ft. Somewhat spreading in character. The waxy green leaves cling all year providing a splendid setting for the fragrant silvery flowers and orange berries.

	Each	Ten
1½ to 2 Ft. potgrown	2.25	20.00

ILEX—HOLLY

ILEX CRENATA. (8 to 10 ft.) Japanese Holly

This evergreen shrub grows into a dense compact bush with oval, dark green, glossy leaves like Boxwood, and producing many shiny black berries. It stands shearing and is good for low evergreen hedges or as individual specimens. An affective plant against walls.

15 to 18 In. B&B	1.50	13.50
1½ to 2 Ft. B&B	2.50	22.50
2 to 2½ Ft. B&B	3.00	27.00
2½ to 3 Ft. B&B	3.75	34.00
3 to 3½ Ft. B&B	4.50	41.00
3½ to 4 Ft. B&B	6.00	54.00

I. CRENATA CONVEXA (Bullata). (3 to 4 ft.)
Boxleaf Japanese Holly

An excellent hardy substitute for Boxwood as an edging plant. Small, shiny, dark green leaves. Can be sheared to dwarf proportions. We recommend its use in cold climates.

12 to 15 In. B&B	1.75	16.00
15 to 18 In. B&B	2.25	20.00

ILEX CRENATA

I. CRENATA LATIFOLIA. (10 to 12 ft.)
Round-leaf Japanese Holly

A beautiful Japanese species. Its fast and loose growth gives it a definite character. Leaves round, dark, shiny green retaining a good color all year; berries black. For foundation plantings, hedges or specimens.

	Each	Ten
2 to 2½ Ft. B&B	3.25	30.00
3 to 4 Ft. B&B	5.00	45.00

I. CRENATA MICROPHYLLA. (6 to 8 ft.)
Little-leaf Japanese Holly

Somewhat like Ilex Crenata with smaller leaves. It is considered hardier. When Parsons introduced it in 1875, he predicted a great future for it as a hedge plant. When planted singly it develops into a beautiful specimen.

12 to 15 In. B&B	1.75	16.00
1½ to 2 Ft. B&B	3.00	27.00

I. GLABRA. (5 to 6 ft.) **Inkberry**
A native evergreen shrub found from Mass. to Florida and west to the Miss. River. Its rich black green foliage and black berries blend with Rhododendrons, Laurel etc. in naturalistic plantings. Grows nicely at seashore.

15 to 18 In. B&B	2.00	18.00
1½ to 2 Ft. B&B	3.00	27.00

I. OPACA. (45 to 50 ft.) **American Holly**
This is the Christmas Holly found from Mass. to Florida and west to Missouri. Large, shiny thorny leaves, one of our loveliest native trees. Holly likes a cool moist location either in sun or shade with an acid soil. Holly is recommended as specimen, in group plantings or hedges.

1½ to 2 Ft. B&B	1.75	15.00
2½ to 3 Ft. B&B	3.00	27.50

KALMIA LATIFOLIA.* (6 to 8 ft.)
Mountain Laurel—Calico Bush
One of our most ornamental shrubs. Decorative, evergreen foliage, covered with abundant masses of pink flowers in May and June. Grows best in acid soils.

1½ to 2 Ft. B&B	2.25	20.00
2 to 2½ Ft. B&B	3.00	27.00
2½ to 3 Ft. B&B	4.25	40.00

LEUCOTHOE CATESBAEI. (3 to 4 ft.)
Drooping Leucothoe
A low shrub with long sprays of glossy green leaves turning bronze and claret in the fall. The showy fragrant white flowers are borne in long clusters hanging from the base of each leaf like a miniature Wisteria. Likes an acid soil, shade or sun.

12 to 15 In. B&B	1.25	11.00
15 to 18 In. B&B	1.75	16.00

PACHYSANDRA TERMINALIS. (6 to 8 in.)
Japanese Spurge

The finest of all evergreen ground covers to use in dense shade under trees where grass will not grow. It spreads rapidly after establishing itself. Plant close to protect and shade the roots. White flowers, tinged with green appear in June. The occasional waxy white berries are a fall attraction.

	10	100	1000
Strong potgrown plants	1.75	15.00	120.00

PIERIS JAPONICA. (6 to 7 ft.)
Illustrated Below. **Japanese Andromeda**
One of the most attractive all year shrubs in our collection. The graceful pendants of flower buds are set in autumn when the foliage assumes glorious red and bronze tints. In early spring the buds open to reveal the waxy white flowers partly concealed by leaves. In half shade or full sun, this shrub will be a lovely specimen.

	Each	Ten
15 to 18 In. B&B	2.25	20.00
1½ to 2 Ft. B&B	3.00	27.00
2½ to 3 Ft. B&B	5.50	50.00
3 to 3½ Ft. specimens B&B	12.50	

PIERIS JAPONICA

PYRACANTHA COCCINEA LALANDI.
(14 to 16 ft.) **Laland Firethorn**
A spectacular evergreen thorn in autumn when it is garbed with orange colored berries, mingled with the small glossy green leaves. Flowers arranged in white clusters. A most effective shrub for wall or foundation plantings. Requires slight protection.

	Each	Ten
1½ to 2 Ft. potgrown	2.25	20.00
2 to 2½ Ft. potgrown	3.00	27.00
5 to 6 Ft. fieldgrown specimens B&B	15.00	

SHADE TREES

BABYLON
WEeping
WILLOW
SALIX
BABYLONICA
See Page 27.

The final touch needed to complete a garden scheme requires proper placing of a desirable tree. A little thought given to selecting the best variety for a particular use is indeed important. In a garden they may be used as accents, to outline paths and borders, to provide welcome shade, to furnish interesting patterns of light and shadow, to supply flowers, berries or foliage effects or to add a feeling of quiet restful repose for garden atmosphere.

ACER — MAPLE

ACER GINNALA. (10 to 12 ft.) Amur Maple		
Lobed, cut leaves appear in early spring, turning bright red in fall.		
	Each	Ten
5 to 6 Ft.	2.00	18.00
6 to 8 Ft.	2.75	24.00

A. PALMATUM ATROPURPUREUM.

(12 to 15 ft.) **Red-leaf Japanese Maple**

Dwarf Japanese Maple with dark, blood-red foliage. Ornamental and useful. One of the best Japanese Maples.

12 to 15 In. potgrown	1.00	9.00
1½ to 2 Ft. B&B	1.50	13.50
3 to 4 Ft. B&B	5.50	50.00

A. PALMATUM ATROPURPUREUM NOVUM.

(6 to 8 ft.) **Purple Japan Maple**

Foliage broader and darker than Atropurpureum.

5 to 6 Ft. specimens B&B	12.50
6 to 7 Ft. specimens B&B	15.00

A. PALMATUM DISSECTUM PURPUREUM.

(5 to 6 ft.) **Purple Cut-leaf Japanese Maple**

Foliage deeply cut, wine-stained in color. Becomes a flat, round shaped bush. Fine foliage, assuming an extremely airy and pleasing effect.

1½ to 2 Ft. Spread B&B	3.50
------------------------------	------

A. PLATANOIDES. (50 to 75 ft.)

Norway Maple

Native of Europe. A vigorous grower, compact in habit, with shiny green foliage. A valuable shade tree for park, street and lawn plantings. Foliage often turns a rich yellow in autumn. Highly recommended.

10 to 12 Ft., 1¾ to 2 In. cal.	4.25	38.00
12 to 14 Ft., 2 to 2½ In. cal.	5.00	45.00
14 to 16 Ft., 3½ to 4 In. cal.	12.50	110.00

A. PLATANOIDES SCHWEDLERI.

(40 to 60 ft.) **Schwedler's Norway Maple**

The foliage of this Norway Maple is beautiful at all seasons. Especially fine in spring with its young shoots of bright purple. Later in the season color changes to purple green. Desirable where contrasting foliage is desired. A splendid specimen tree or with mixed plantings.

10 to 12 Ft., 1¾ to 2 In. cal.	5.50
12 to 14 Ft., 2½ to 3 In. cal.	8.50
14 to 16 Ft., 3½ to 4 In. cal.	20.00

A. SACCHARUM. (50 to 75 ft.) **Sugar Maple**

The Rock or Sugar Maple is a stately and shapely native tree. Vigorous, upright and dense grower, its crown will spread where room permits. Leaves turn bright yellow and scarlet in autumn. For the avenue, park or home-grounds. One of the finest. It grows in any soil.

12 to 14 Ft., 2 to 2½ In. cal.	5.50	50.00
14 to 16 Ft., 3 to 3½ In. cal.	11.00	100.00
14 to 16 Ft., 4 to 4½ In. cal.	17.50	

AESCLUS CARNEA (RUBICUNDA).

Pink Horse Chestnut

Light red, spotted flowers in erect trusses.		
	Each	Ten
8 to 10 Ft.	6.00	54.00

A. HIPPOCASTANUM. (60 to 80 ft.)

Horse Chestnut

Erect trusses of white, spotted flowers.

10 to 12 Ft., 1¾ to 2 In. cal.	3.50	31.00
12 to 14 Ft., 2½ to 3 In. cal.	5.50	50.00

A. PARVIFLORA. (6 to 10 ft.)

Bottlebrush Buckeye

A rare, dwarf variety of Chinese origin with erect spikes of cream-colored flowers. A handsome round headed, unusual bush.

4 to 5 Ft. B&B	7.00	63.00
5 to 6 Ft. B&B	8.00	72.00

AMYGDALUS — FLOWERING PEACH

AMYGDALUS PERSICA FLORE ALBO-PLENA.

Double White Flowering Peach

Blooms May 1st to 10th.		
	Each	Ten
4 to 5 Ft.	1.50	
5 to 6 Ft.	2.25	

A. PERSICA FLORE ALBO-PLENA PENDULA.

Double White Weeping Flowering Peach

A weeping form with double pure white flowers. May 1st through 10th.

2 to 3 Ft.	1.50
4 to 5 Ft.	4.00

A. PERSICA CLARA MEYER.

Large-flowered, Double Pink Flowering Peach

Flowers May 10th.		
3 to 4 Ft.	1.00	
8 to 10 Ft. B&B	5.50	

A. PERSICA FLORE ROSEO-PLENA.

Double, clear pink flowers, most attractive. May 1st to 10th.

4 to 5 Ft.	1.50
6 to 7 Ft.	3.50

A. PERSICA FLORE ROSEO-PLENA PENDULA.

Double Pink Weeping Flowering Peach

A beautiful lawn specimen. May 1st to 10th.		
4 to 5 Ft.	4.00	
5 to 6 Ft.	5.00	

A. PERSICA FLORE RUBRO-PLENA.

Double Red Flowering Peach

Brilliant red blossoms. May 1st to 10th.

3 to 4 Ft.	1.00
5 to 6 Ft.	2.25
8 to 10 Ft. B&B	5.50

A. PERSICA FLORE RUBRO-PLENA PENDULA

Weeping Red Flowering Peach

An attractive lawn specimen.

4 to 5 Ft.	4.00
5 to 6 Ft.	5.00

HARDY PERENNIALS

Are included in our other catalogue. Send for a copy.

BETULA — BIRCH

B. ALBA. (30 to 40 ft.) European White Birch

A beautiful popular native variety. Light green foliage and showy, smooth white bark.

	Each	Ten
6 to 8 Ft.	2.50	
8 to 10 Ft.	3.00	

B. ALBA LACINIATA. (30 to 40 ft.)

Weeping Cutleaf Birch

A most attractive lawn tree. Drooping branches are covered with light green delicately cut foliage. Straight, erect trunk. Bark is pure white. Delightfully graceful.

6 to 8 Ft.	3.00	
8 to 10 Ft.	4.50	

CARPINUS — HORNBEAM

C. BETULUS. (50 to 60 ft.)

European Hornbeam

This is one of the toughest and hardest wood trees in existence. The toothed leaves turn a golden yellow in the fall, clinging most of the winter. For large hedges, windbreak, or game-cover.

5 to 6 Ft.	5.00	45.00
6 to 8 Ft.	6.50	

CASTANEA DENTATA. (70 to 90 ft.)

American Chestnut

Tall, vigorous growing and hardy. Edible fruits.

3 to 4 Ft.	1.50	
-----------------	------	--

C. MOLLISIMA. (25 to 35 ft.) Hairy Chestnut

An importation from China. Hardy. Large, edible nuts.

2 to 3 Ft.	1.00	
-----------------	------	--

CATALPA BUNGEI. (10 to 15 ft.)

Umbrella Catalpa

Dense, globe-shaped head. Leaves heart-shaped.

4 yr. heads	2.50	22.50
------------------	------	-------

CERCIDIPHYLLUM JAPONICUM. (20 to 30 ft.)

Katsura Tree

The heart-shaped foliage tinged with purple unfolds in Spring. Turns to scarlet and gold in autumn. Its habit of yielding two or more stems gives it a unique appearance. Used as a specimen, screens or windbreaks.

4 to 5 Ft.	2.25	20.00
6 to 8 Ft.	4.50	41.00
8 to 10 Ft.	6.50	60.00

CERCIS CANADENSIS. (12 to 15 ft.)

American Redbud

Found growing naturally in our eastern states usually with Cedar, Birch and Dogwood. The purple-rose colored flowers appear in April before the leaves. This is one of our earliest flowering trees. Branches can be forced in the house from the latter part of February.

3 to 4 Ft.	1.00	9.00
-----------------	------	------

C. CHINENSIS. (12 to 15 ft.) Chinese Redbud

A beautiful species of Redbud.

Flowers pink tinged with purple. Each	Ten
1½ to 2 Ft.	1.00 9.00

CLADRASTIS LUTEA. (30 to 40 ft.)

Yellow Wood

Bears drooping, graceful, white flowers in June.

4 to 5 Ft.	2.75
6 to 8 Ft.	4.50

CORNUS — FLOWERING DOGWOODS

Each Spring all of us eagerly anticipate and welcome the flower display of the Dogwoods. Followed by dark green foliage, changing to gorgeous reds and yellows in the Fall, they are attractive lawn or border specimens.

C. FLORIDA. (15 to 25 ft.)

White Flowering Dogwood

No garden or landscape is complete without the lovely Dogwood. In May, the large white flowers completely cover the tree. Glorious in fall color combined with its red fruit. Single.

3 to 4 Ft.	1.75	16.00
5 to 6 Ft.	3.50	31.00
8 to 10 Ft. Standards B&B	6.50	
10 to 12 Ft. Standards B&B	7.50	68.00

C. FLORIDA ALBO-PLENA. (15 to 25 ft.)

Double White Flowering Dogwood

A hybrid of C. Florida equally as good. Double white flowers. Use singly, in groups, or as shrubs.

4 to 5 Ft.	3.00
6 to 8 Ft.	5.50

C. FLORIDA PENDULA.

Weeping White Flowering Dogwood

An "out of the ordinary" variety. The long, pendulous branches hang like a weeping willow. In May, when the tree blooms, it is truly a cascade of white. A valuable lawn specimen.

3 yr. heads on 6 ft. stems B&B	7.50
--------------------------------	------

C. FLORIDA RUBRA. (15 to 20 ft.)

Red Flowering Dogwood

Identical to the common white variety with flowers a varied shade of pink. For best effects plant among the white varieties or as lawn specimens.

3 to 4 Ft.	3.50	31.00
4 to 5 Ft.	4.25	38.00
5 to 6 Ft.	5.75	52.50

C. KOUSA (16 to 18 ft.)

Kousa Dogwood

From China and Japan comes this late flowering Dogwood. Creamy white flowers in June after the foliage has developed. This variety gives an extended blooming period to the Dogwoods.

4 to 5 Ft.	2.00
5 to 6 Ft.	2.50

CRATAEGUS — HAWTHORN

C. CARRIEREI. (15 to 20 ft.)

Carriere Hawthorn

A small tree with dark green glossy foliage and drooping clusters of white flowers followed by brilliant orange fruit.

	Each	Ten
4 to 5 Ft.	2.50	
6 to 8 Ft.	4.25	

C. CORDATA. (12 to 15 ft.) Washington Thorn

Grows quite large bearing clusters of white flowers when most others have finished flowering. Brilliant, showy red fruits ranks it most attractive.

4 to 5 Ft.	3.00	27.00
6 to 8 Ft.	4.50	40.00

C. CRUS-GALLI. (15 ft.) Cockspur Thorn

A well-known, native variety with long sharp thorns. Fruit a bright red.

4 to 5 Ft.	2.75	
6 to 8 Ft.	4.50	40.00

C. LAVALLEI. (20 ft.) Lavalle Thorn

Another hybrid from France. Known for the size and beauty of its scarlet berries and lustrous leathery foliage.

3 to 4 Ft.	2.25	20.00
5 to 6 Ft.	3.75	

C. OXYACANTHA. (12 to 15 ft.)

Two-stone English Hawthorn

A small tree with spreading branches and stout spines. The small, white, fragrant flowers in large clusters are followed by scarlet berries. Excellent for hedge.

2 to 3 Ft.	1.25	11.00
3 to 4 Ft.	1.50	13.50

C. OXYACANTHA ALBO-PLENA. (15 ft.)

Double White English Hawthorn

Small tiny rose-like flowers. Resembles Oxyacantha in habit.

4 to 5 Ft.	2.25	20.00
6 to 8 Ft.	3.75	34.00

C. OXYACANTHA PAULI. (12 to 15 ft.)

Paul's Scarlet English Hawthorn

The double, rich, brilliant scarlet flowers of this variety supply a definite appeal to most garden lovers. One of the most popular varieties.

5 to 6 Ft.	2.75	24.00
6 to 8 Ft.	3.75	34.00

C. OXYACANTHA ROSEA-NOVA. (15 ft.)

Single Pink English Hawthorn

Lovely, large, pink flowers. Single.

4 to 5 Ft.	2.25	20.00
6 to 8 Ft.	3.75	34.00

C. OXYACANTHA ROSEO-PLENA.

(12 to 15 ft.) Double Pink English Hawthorn

Similar to Rosea-nova with double flowers. A lovely pink shade.

4 to 5 Ft.	2.25	20.00
6 to 8 Ft.	3.75	34.00

FAGUS AMERICANA. (60 to 80 ft.)

American Beech

One of the most ornamental and beautiful shade trees for lawn or park planting. Light gray, smooth bark, shiny green leaves.

	Each	Ten
4 to 5 Ft. B&B	4.25	38.00
6 to 7 Ft. B&B	7.00	63.00

Where space permits, and where an unusual hedge treatment is wanted, the European Beech cannot be surpassed.

F. SYLVATICA. (75 to 100 ft.)

European Beech

A low branched tree that retains its foliage throughout the winter. Summer foliage dark green and glossy. Planted as a single tree, it develops into a specimen of singular beauty with grayish smooth bark and round symmetrical crown. Excellent as a wind-break, and its ready response to pruning makes it invaluable for hedge purpose.

	Each	Ten
3 to 4 Ft. B&B	2.25	20.00
5 to 6 Ft. B&B	4.50	41.00
8 to 10 Ft. B&B	8.50	78.00

F. SYLVATICA ATROPURPUREA RIVERSI. (60 to 80 ft.)

River's Purple Beech

A stately, free growing tree with large, shiny, purple foliage. A splendid lawn specimen.

5 to 6 Ft. B&B	10.00
16 to 18 Ft. specimen B&P	125.00

F. SYLVATICA TRICOLOR.

Another interesting form of Purple Beech. Leaves spotted with rose-pink blotches.

6 to 7 Ft. B&B	12.50

SHADE TREES—Continued on Page 22.

NAMED HYBRID RHODODENDRONS

THE gorgeous flowers of these beloved broad-leaved evergreens assume shades and tints to fit any color scheme. Rhododendrons are suitable for the small or large garden. Easy to grow, requiring acid soil (free from lime), they will yield much garden pleasure.

Here, in clear, concise form, are given the chief characteristics of a selected list of these popular broad-leaved evergreens. Colors, habit of growth, and other points have been carefully

checked by our records; they may be depended on as an accurate guide to variety selection.

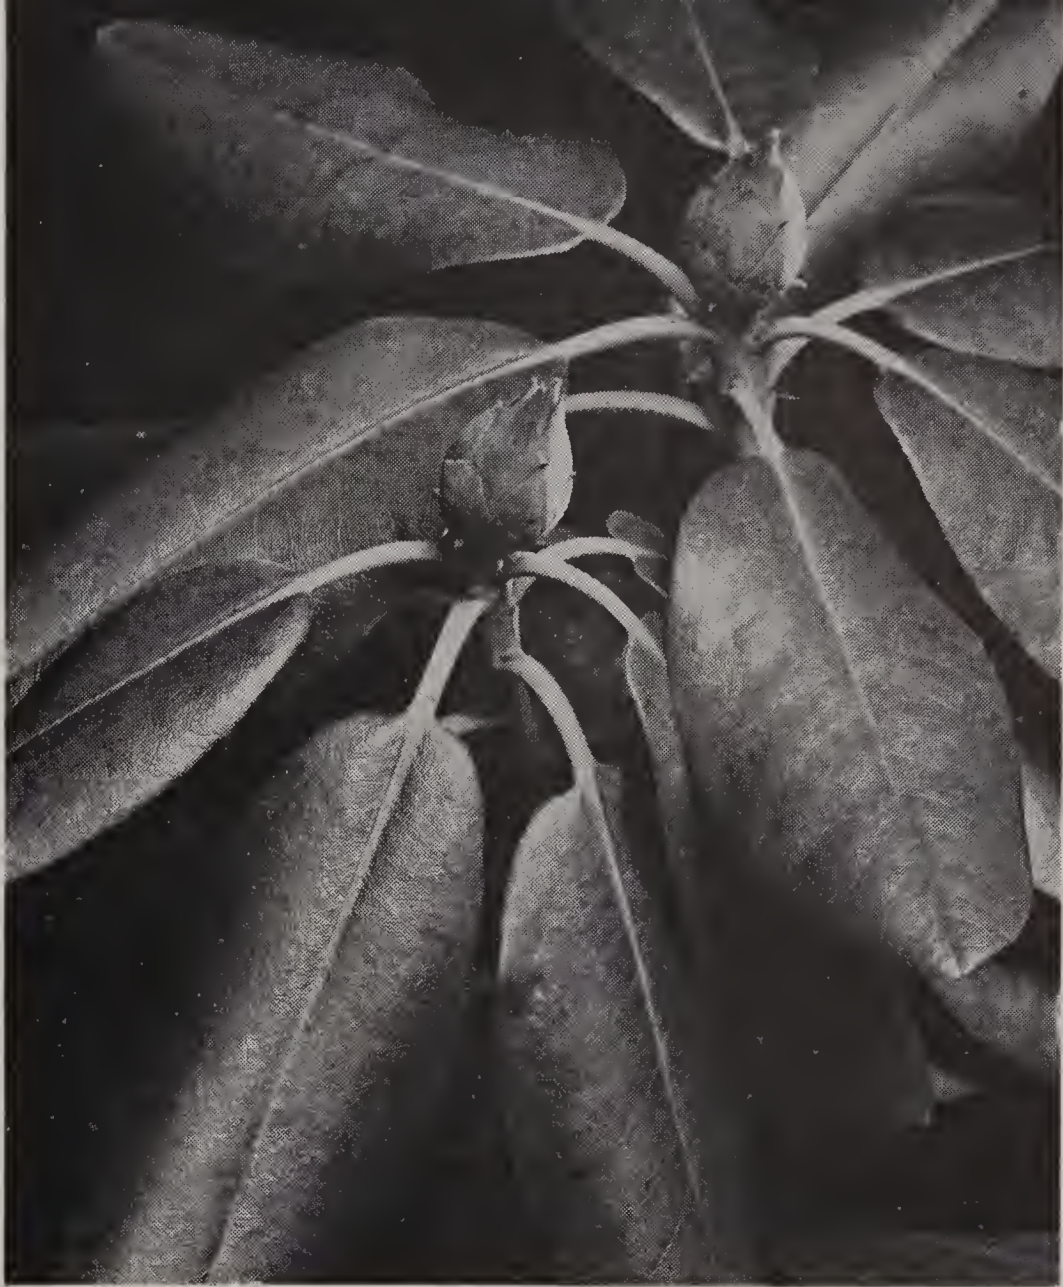

Under the heading "Blooming Date" we give you accurate data as to the time the varieties begin to bloom. Of course, these dates apply to our vicinity, and will vary with geographical location.

PLEASE NOTE.—Only the sizes listed with each variety can be supplied at this time. When ordering, please be sure that we have the size you desire.

Special quotations will be given on large quantity purchases.

TEN PER CENT DISCOUNT will be allowed on orders for five or more plants of one variety.

The flower buds of Hybrid Rhododendrons burst into glorious blooms under the influence of warming Spring suns.

BOULE DE NEIGE. Pure white. Dwarf and spreading. May 10 to 15. Hardy. 12 to 15-in. diam., \$3.50 each; 15 to 18-in. diam., \$5.00 each.

SHADE TREES

CONTINUED
From Page 19

LABURNUM VOSSI

FRANKLINIA ALATAMAHA (GORDONIA).

One of the few trees to flower in the Autumn. Blooms freely each year. Shiny green leaves turn scarlet. Flowers pure white, 3 inches across. Hardy.

	Each	Ten
4 to 5 Ft. B&B	5.00	
5 to 6 Ft. B&B	6.00	
6 to 7 Ft. B&B	8.50	

GINKGO BILOBA. (50 to 75 ft.)

Maidenhair Tree

Of Oriental origin and appearance with fan-shaped leaves that take on a pleasing yellow fall color. The straight and open growth when young develops into an enormous round head when matured. Resists disease, insects, and city conditions. A valuable all purpose tree.

6 to 7 Ft.	2.25	20.00
7 to 8 Ft.	3.00	27.00
8 to 10 Ft.	3.50	31.00
10 to 12 Ft., 1½ to 1¾ In. cal.	6.00	54.00
10 to 12 Ft., 1¾ to 2 In. cal.	7.50	68.00
10 to 12 Ft., 2 to 2½ In. cal.	10.00	90.00

G. BILOBA FASTIGIATA.

Becomes a tall, fastigiate tree. More slender than Biloba.

4 to 5 ft.	1.50	13.50
-----------------	------	-------

HALESIA TETRAPTERA. (12 to 15 ft.)

Great Silver Bell

A vigorous, good looking, large shrub, with leaves dark green above and pale green below. Pure white bell-shaped flowers resemble snowdrops, appearing with the first foliage. Four-winged, brown fruits. Will thrive in well-drained soil, and prefers a sheltered location. Quite decorative when in flower.

5 to 6 Ft.	1.25	11.00
8 to 10 Ft.	2.50	22.50
10 to 12 Ft.	3.50	

KOELREUTERIA PANICULATA. (25 to 30 ft.) Varnish Tree

A small, lightly branched tree with rounded head. Bright yellow flowers in July borne in large terminal trusses, a striking contrast to the green, compound foliage. Not particular as to soil yet likes a sunny location. Hardy.

	Each	Ten
5 to 6 Ft.	2.00	18.00
8 to 10 Ft.	4.25	38.00

LABURNUM ALPINUM. Scotch Laburnum

Light green, glabrous foliage. Yellow flowers in racemes.

2 to 3 Ft.	1.00	9.00
-----------------	------	------

L. VOSSI. Voss Golden Chain

A new and improved variety. The bright green, trilobed foliage emphasizes the long racemes of brilliant yellow flowers. Reminds us of the Wisterias. Use singly, or on border edge. Hardy, not particular as to soil; sunny or part shady location.

6 to 8 Ft.	4.50
8 to 10 Ft.	6.00

L. VULGARE. (30 ft.) Golden Chain

A familiar Laburnum. Yellow flowers in pendulous clusters are smaller than Vossi. Grows more vigorously.

5 to 6 Ft.	2.50
6 to 7 Ft.	4.25

L. WATERERI. Waterer Laburnum

Long, slender racemes of yellow bloom. Dwarf habit.

2 to 3 Ft.	1.50
-----------------	------

MORUS ALBA PENDULA. (8 to 10 ft.)

Tea's Weeping Mulberry

A well-known variety with long weeping branches, fountain-like in effect. Much used as lawn specimens. The berries attract the birds. Grafted on 5 ft. stems.

3 yr. crown	2.75	24.00
-------------------	------	-------

MAGNOLIAS

In early Spring, just when Nature really awakens, we rely on the Magnolias to start a fascinating display of colorful bloom. Magnolia Stellata, (pictured on Page 24) the first of the Magnolias to bloom, unfolds its silvery, star-shaped blossoms before the foliage appears.

The large-flowering Chinese varieties follow with blooms varied in color, shape—and in fragrance. Some varieties flower in June.

M. ACUMINATA. (70 to 80 ft.)

Cucumber Tree

A fast growing, broad, pyramidal specimen tree with wide oval foliage pointed at the tip. The flowers are yellow green appearing the end of May or early June. Really beautiful in Autumn when the cucumber-like seed pods burst open revealing brilliant pink and scarlet seeds.

	Each	Ten
2 to 3 Ft. B&B	1.25	11.00

M. ACUMINATA CORDATA.

Yellow Cucumber Tree

The only Magnolia yielding yellow flowers. Delightfully fragrant, measuring almost 4 inches. Blooms from April 25th to May 5th and again in the fall. Easily distinguished by its nearly round, heart-shaped leaves. One of the few yellow flowering native trees. Highly recommended.

4 to 5 Ft. B&B	6.00
6 to 8 Ft. B&B	8.00

M. CONSPICUA. (25 to 30 ft.)

Yulan Magnolia

From Central China comes this fairly large wide spreading tree, with large, creamy white, sweet-scented flowers, 6 inches across, in April. A fine Oriental variety for the lawn.

2 to 3 Ft. B&B	3.00
3 to 4 Ft. B&B	4.50
5 to 6 Ft. B&B	10.00

M. GLAUCA. (15 to 20 ft.)

Sweet Bay

From Jersey to Georgia our lowland woods abound in Sweet Bay. Glossy, blue-green, almost evergreen leaves with white underside. The white flowers of the Sweet Bay appearing June 1st to 10th are most fragrant. Prefers a moist location. For that low spot in your garden.

3 to 4 Ft. B&B	3.00	27.00
5 to 6 Ft. B&B	5.50	50.00
6 to 8 Ft. B&B	7.00	63.00

M. LILIFLORA NIGRA. (8 to 10 ft.)

Purple Lily Magnolia

This variety grows like a large shrub with many woody twigs. Large, dark purple flowers outlast many others. Season is from May 8th to 25th. One of the finest flowering of all. Good for limited areas. An outstanding variety.

	Each	Ten
2 to 3 Ft. B&B	2.75	
3 to 4 Ft. B&B	4.25	
5 to 6 Ft. B&B	7.50	
8 to 10 Ft. B&B	17.50	

M. MACROPHYLLA. (25 to 30 ft.)

Large-leaf Cucumber Tree

Medium sized spreading tree of quite rapid growth. Large leaves from 1 to 2 ft. long. Immense white flowers, often 15 to 18 inches in size.

6 to 8 Ft. B&B	8.50
10 to 12 Ft. B&B	15.00

M. PARVIFLORA. (25 to 30 ft.)

Oyama Magnolia

A small tree from Japan deserving a more popular place. In June, it produces lovely, fragrant, white, cup-shaped flowers, with a rosette of deep crimson stamens in the center. For specimens, accent and groupings.

2 to 3 Ft. B&B	5.00
4 to 5 Ft. B&B	7.50

M. SOULANGEANA. (15 to 18 ft.)

Saucer Magnolia

The popular variety of northern gardens. Large, pink white flowers, tinted purple at edges. Attractive foliage. Blooms approximately April 25th to May 5th. Transplants best in early spring.

2 to 3 Ft. B&B	2.25	20.00
3 to 4 Ft. B&B	3.75	34.00
5 to 6 Ft. B&B	7.00	63.00
8 to 10 Ft. B&B	17.50	

M. SOULANGEANA ALBA SUPERBA. (15 to 18 ft.)

White Saucer Magnolia

A small tree similar in habit to Soulangeana yielding a profusion of large, pure white flowers from about May 1st to 10th. An excellent variety.

2 to 3 Ft. B&B	3.00	27.00
4 to 5 Ft. B&B	6.00	54.00
6 to 8 Ft. B&B	11.00	100.00
10 to 12 Ft. B&B	25.00	

MAGNOLIA STELLATA

M. SOULANGEANA ALEXANDRINA.

White flowers similar to those of M. Soulangeana, but appearing ten days later.

	Each	Ten
2 to 3 Ft. B&B	3.00	27.00
4 to 5 Ft. B&B	6.50	60.00
6 to 8 Ft. B&B	12.50	
10 to 12 Ft. B&B	35.00	

M. SOULANGEANA LENNEI. (15 to 18 ft.)

Lenne Magnolia

Considered one of the best and picturesque of all Magnolias. If permitted to grow naturally, will form an open bush with the lowest branches resting the arches on the ground. The flowers are large, egg-shaped, a strong rosy-crimson color outside and white inside with thick fleshy petals about 4 inches wide. Blooms late about May 6th to 15th. Very hardy.

2 to 3 Ft. B&B	3.75	34.00
4 to 5 Ft. B&B	9.00	
6 to 8 Ft. B&B	16.00	
8 to 10 Ft. B&B	25.00	

M. SOULANGEANA SPECIOSA. (12 to 15 ft.)

Striped Saucer Magnolia

Flowers are white with a purple stripe on the outside of the petals. Compact grower. Will flower profusely at an early age.

2 to 3 Ft. B&B	2.75	24.00
4 to 5 Ft. B&B	6.00	54.00
8 to 10 Ft. B&B	20.00	

M. STELLATA. (10 to 12 ft.) Star Magnolia

A lovely dwarf species from Japan. Forms a round, bush with small attractive foliage, rarely over 10-12 ft. high. Free blooming, and will start flowering at an early age. Flowers are semi-double, star-shaped, about 3 inches across, white with soft pink blush and delightfully fragrant. The first Magnolia to bloom about April 8th to 20th. Fine as small specimen, or in a landscape border, or the rock-garden.

	Each	Ten
1½ to 2 Ft. B&B	2.75	24.00
2 to 2½ Ft. B&B	3.75	35.00
2½ to 3 Ft. B&B	5.50	50.00
4 to 5 Ft. B&B	11.00	

M. STELLATA ROSEA.

True Pink Star Magnolia

A choice dwarf variety of Stellata with rose-pink flowers.

1½ to 2 Ft. B&B	5.00
2 to 2½ Ft. B&B	6.00

OXYDENDRON ARBOREUM. (20 to 30 ft.)
Sorrel-Tree

A beautiful medium sized, dome-shaped tree, adorned with numerous long branches of small white flowers. The thick shiny leaves change to bright shades of scarlet and crimson in autumn.

	Each	Ten
3 to 4 Ft. B&B	1.50	13.50
4 to 5 Ft. B&B	2.25	20.00
6 to 8 Ft. B&B	4.25	38.00

PLATANUS ORIENTALIS. (70 to 80 ft.)
European Plane Tree

A symmetrical, useful tree for cities and parks, and homes. Resists smoke, dust and insects. Assumes a broad spreading head 70 to 80 ft. high, providing ample shade with rich strong maple-leaved foliage. Interesting, grey bark interspersed with yellow. Grows rapidly and lives long.

10 to 12 Ft., 1 3/4 to 2 In. cal.	5.00	45.00
12 to 14 Ft., 2 to 2 1/2 In. cal.	6.00	54.00
14 to 16 Ft., 2 1/2 to 3 In. cal.	10.00	90.00
14 to 16 Ft., 3 to 3 1/2 In. cal.	15.00	135.00

POPULUS - POPLAR

POPULUS ALBA NIVEA. Silver Poplar
Handsome, quick growing tree with contrasting foliage green above and silvery-white underneath. Useful for foliage effect in large plantings. Screen or wind-break.

	Each	Ten
8 to 10 Ft.	2.00	18.00

P. EUGENEI (CANADENSIS). (75 to 90 ft.)
Carolina Poplar
Unsuited for street planting in cities. For seashore, dry places or in large plantings. Grows rapidly.

8 to 10 Ft.	1.00
-------------	------

P. NIGRA ITALICA. (50 to 60 ft.)
Lombardy or Italian Poplar
One of the most striking and picturesque trees for the garden. Tall, narrow habit in growth. Screen or windbreak.

6 to 8 Ft.	.90	8.00
8 to 10 Ft.	1.25	11.00

P. TREMULOIDES PENDULA. (20 to 30 ft.)
Weeping Quaking Aspen
A weeping or drooping form of the common Quaking Aspen.

4 to 5 Ft.	2.00	18.00
5 to 6 Ft.	2.50	

PRUNUS

JAPANESE FLOWERING CHERRIES

It will be easy for you to create a miniature of the famed Washington, D. C. Flowering Cherry display on your own premises. Stocks of the very same trees—and many others—are obtainable so that everyone can enjoy a fairy-like spectacle each year. The Japanese Flowering Cherries are hardy and will thrive in almost any kind of soil.

PRUNUS AVIUM. Mazzard Cherry
As a young tree it develops a strong central leader, pyramidal in shape. Single flowers are pure white, succeeding sweet fruits are red. Relished by birds. May.

	Each	Ten
6 to 8 Ft.	1.50	13.50

JAPANESE FLOWERING CHERRIES

P. ALBO-PLENA. Double White Cherry
Double, white, one of the prettiest.

3 to 4 Ft.	1.90
4 to 5 Ft.	2.25
5 to 6 Ft.	3.00
6 to 8 Ft.	4.00
8 to 10 Ft.	5.50

P. AMANOGAWA. Upright Cherry
Its habit of growth is quite distinct as it is as upright as a Lombardy poplar tree. The semi-double, fragrant, pink flowers hang from it in clusters beginning about May 10.

3 to 4 Ft.	1.90
4 to 5 Ft.	2.25
5 to 6 Ft.	3.00
6 to 8 Ft.	4.00
8 to 10 Ft.	5.50

P. BENISHI.
Displays clouds of beautiful double rosy pink flowers about May 10.

	Each
3 to 4 Ft.	1.90
4 to 5 Ft.	2.25
5 to 6 Ft.	3.00
6 to 8 Ft.	4.00

P. DAYBREAK. (Akebono).
A single pink form of the famous Yoshino Cherry. Blooms in extreme profusion before leaves appear.

3 to 4 Ft.	1.90
4 to 5 Ft.	2.25
5 to 6 Ft.	3.00
6 to 8 Ft.	4.00

P. FUGENZO (Kofugen: James H. Veitch)
Foliage is coppery red, affording a startling contrast to the large extremely double, deep pink flowers.

3 to 4 Ft.	1.90
4 to 5 Ft.	2.25
5 to 6 Ft.	3.00

P. GYOIKO. Double Light Green Cherry

Double green flowers are unique. They become flushed with pink when fully expanded.

6 to 8 Ft.	Each 4.00
8 to 10 Ft.	5.50
10 to 12 Ft.	7.50

P. HIGURASHI.

Popular variety. Displays rose-pink flowers lavishly from May 10 to 15.

3 to 4 Ft.	1.90
4 to 5 Ft.	2.25
5 to 6 Ft.	3.00

P. HOSOKAWANIOI.

Shell-pink flowers of great charm appear in clouds about May 1. They last well.

3 to 4 Ft.	1.90
4 to 5 Ft.	2.25
5 to 6 Ft.	3.00
6 to 8 Ft.	4.00

P. ICHIYO. One-leaf Cherry

Foliage clear green, making a pleasing background for the delicate, pure white, pendulous flowers.

3 to 4 Ft.	1.90
4 to 5 Ft.	2.25
5 to 6 Ft.	3.00

P. KWANZAN. Large Double Pink Cherry

Sometimes listed as Sekizan. It is well worthwhile and produces an abundance of large, double, clear pink flowers. Red when in bud.

4 to 5 Ft.	2.25
5 to 6 Ft.	3.00
6 to 8 Ft.	4.00

P. MIKURUMAGAESHI.

Double Bright Pink Cherry

Considered by many the most beautiful of the species. Midway in spring, its branches are covered with fragrant, tasseled, shell-pink flowers.

3 to 4 Ft.	1.90
-----------------	------

P. MOUNT FUJI (Shirotae).

Pure white, double-flowering.

3 to 4 Ft.	1.90
4 to 5 Ft.	2.25
5 to 6 Ft.	3.00

P. SEKIZAN-ZAKURA.

Double, clear pink, flowers up to 2½ inches diameter, about three to five blossoms in a cluster.

3 to 4 Ft.	1.90
4 to 5 Ft.	2.25
6 to 8 Ft.	4.00
8 to 10 Ft.	5.50

P. SHIROFUGEN.

Covered with flowers about April 10. The buds are pink and the expanding flowers white, but as they age, they turn bluish pink.

4 to 5 Ft.	2.25
5 to 6 Ft.	3.00
6 to 8 Ft.	4.00

P. SIEBOLDI (Naden).

Popularly known as "Siebold's Cherry." This sturdy tree is covered about May 5th with semi-double pink blossoms in clusters.

3 to 4 Ft.	Each 1.90
4 to 5 Ft.	2.25
5 to 6 Ft.	3.00

P. SHIROTAE. (See Mount Fuji on other column)

P. TORANO-O

An excellent double-flowering variety with rosy pink flowers appearing about May 1.

3 to 4 Ft.	1.90
4 to 5 Ft.	2.25

P. WASHINO-O

Covered with abundance of fragrant single pink white flowers in spring.

5 to 6 Ft.	3.00
-----------------	------

P. YEDO-ZAKURA. Yedo Cherry

Excellent double pink form, somewhat resembling Kwanzan, but the flowers are a lighter pink and the young foliage is less coppery.

3 to 4 Ft.	1.90
5 to 6 Ft.	3.00

STANDARD JAPANESE FLOWERING CHERRIES

PLEASE NOTE only sizes listed with each variety can be supplied at this time. When ordering, please be sure that we have the size you want.

We can supply excellent Standard Japanese Flowering Cherries, 3 yr. crowns on 6 ft. clear, straight stems, at \$4.00 each, \$36.00 per ten, in the following varieties: **FUGENZO, GYOIKO, HIGURASHI, HOSOKAWANIOI, MOUNT FUJI, SHIROFUGEN, SIEBOLDI, TORANO-O.**

WEeping JAPANESE FLOWERING CHERRIES

P. SUBHIRTELLA PENDULA.

Single Pink-Flowering Weeping Cherry

	Each	Ten

"OLD FASHIONED ROSES"

An authoritative and carefully edited booklet full of interesting facts about these old garden favorites.

QUERCUS-
The Oak

Pin Oak

Q. PALUSTRIS. (75 to 90 ft.)

Generally admired for its character and beauty. A handsome tree of symmetrical growth, with deeply cut shiny foliage turning beautiful scarlet in autumn. They transplant well, are fairly rapid growers. Excellent for use along the avenues, parks, on the home grounds or as specimens. Prefer moist soil yet do equally well in an average location.

	Each	Ten
8 to 10 Ft.	2.00	18.00
8 to 10 Ft., 1¼ to 1½ In. cal.	2.75	24.00
10 to 12 Ft., 1½ to 1¾ In. cal.	3.75	34.00
12 to 14 Ft., 2 to 2½ In. cal.	6.50	60.00
12 to 14 Ft., 2½ to 3 In. cal.	8.50	

Q. ROBUR FASTIGIATA. (35 to 50 ft.)

Pyramidal English Oak

Handsome, monumental, narrow, pyramid-shaped oak. Foliage dark green above, pale below. For formal landscape or skyline effect.

5 to 6 Ft.	7.00	
-----------------	------	--

Q. RUBRA. (75 to 90 ft.)

Red Oak

Most majestic of the Oaks and a native of America. A tree for the open, in parks and landscape work generally. The deeply cut, glossy green foliage turns dark red in the fall. Transplants easily and grows quickly after it is established. Requires reasonably good soil.

8 to 10 Ft., 1¼ to 1½ In. cal.	4.50	40.00
10 to 12 Ft., 1½ to 1¾ In. cal.	5.50	50.00
10 to 12 Ft., 1¾ to 2 In. cal.	7.00	63.00
12 to 14 Ft., 2 to 2½ In. cal.	9.00	80.00
12 to 14 Ft., 2½ to 3 In. cal.	13.00	115.00

SALIX-The Willow

SALIX ELEGANTISSIMA. (60 to 70 ft.)

Thurlow Weeping Willow

A vigorous and fast growing variety. Great mass of graceful curving green branches form a semi-weeping effect. For street planting or general landscape.

	Each	Ten
8 to 10 Ft.	2.00	18.00

SALIX BABYLONICA. (50 to 60 ft.) See illustration on Page 16. **Babylon Weeping Willow**

This familiar tree is easily recognized by its long, graceful branches drooping to the ground. At home in a moist place, it will grow nicely in a dry soil, always adding an artistic and restful touch to any surrounding.

8 to 10 Ft.	2.00	18.00
------------------	------	-------

S. PENTANDRA (Laurifolia). (10 to 20 ft.)

Laurel-leaf Willow

Shiny, dark green foliage resembling the Laurel.

4 to 5 Ft.85	
5 to 6 Ft.	1.00	

S. VITELLINA AUREA. (30 to 40 ft.)

Golden Russian Weeping Willow

Grows into a large tree with a short trunk. The golden yellow branches contrast effectively with the leaves, which are white underneath. Young wood shows the brightest color. Useful on estates, parks, as specimen or screen planting.

6 to 8 Ft.	1.50	13.50
8 to 10 Ft.	2.00	18.00

SOPHORA JAPONICA. (30 to 40 ft.)

Chinese Scholartree

Tree forms a dense round head with dark green glossy leaves. Blooms in loose panicles yellow-white in color.

4 to 5 Ft.	2.25	
5 to 6 Ft.	3.50	
8 to 10 Ft.	7.50	

SORBUS AUCUPARIA. (25 to 30 ft.)

European Mountain Ash

In the Fall this tree is covered with large clusters of orange scarlet berries. Attractive to the birds.

6 to 8 Ft.	2.25	20.00
8 to 10 Ft.	3.00	27.00

STEWARTIA KOREANA. (6 to 15 ft.)

Korean Stewartia

A desirable shrub or tree with bright green rather large foliage turning to red or orange in the Fall. Large, white cup-shaped flowers in mid-summer.

3 to 4 Ft.	3.00	
5 to 6 Ft.	6.00	
6 to 8 Ft.	7.50	

STYRAX JAPONICA. (12 to 15 ft.)
Japanese Snowbell

A graceful shrub of loose and spreading habit with pure white, fragrant, bell-shaped, pendant flowers in June. Flowers are followed by pendulous cherry-like fruits of green white. Thrives in light porous soil.

	Each	Ten
4 to 5 Ft.	1.50	13.50
5 to 6 Ft.	2.00	18.00
6 to 8 Ft.	3.00	27.00
8 to 10 Ft.	4.50	41.00

S. OBASSIA. (20 to 30 ft.) **Fragrant Snowbell**

Distinct large round leaves and fragrant white bell-shaped flowers in May distinguish this deciduous tree. A symmetrical grower.

4 to 5 Ft.	3.50
5 to 6 Ft.	4.25
6 to 8 Ft.	5.50
8 to 10 Ft.	12.50

TILIA - LINDEN
BASSWOOD

TILIA CORDATA

The Lindens or Basswoods have many desirable qualities. They grow quickly, soon developing into beautiful, compact trees. They are suitable single lawn specimens; excellent for street planting; or for creating original landscape effects. Sweetly fragrant flowers appear in June.

T. CORDATA (PARVIFLORA). (70 ft.)
Small Leaved European Linden

The heart-shaped leaves are small and it is the latest Linden to flower. Exceptionally sweet-scented blossoms. The best Linden for street planting in our climate.

	Each	Ten
8 to 10 Ft., 1½ to 1½ In. cal.	3.50	31.00
10 to 12 Ft., 1½ to 2 In. cal.	5.25	48.00
10 to 12 Ft., 2 to 2½ In. cal.	6.75	60.00
12 to 14 Ft., 2½ to 3 In. cal.	10.00	90.00
14 to 16 Ft., 3 to 3½ In. cal.	15.00	135.00
14 to 16 Ft., 3½ to 4 In. cal.	20.00	180.00

T. TOMENTOSA (ARGENTEA). (40 to 60 ft.)
Silver Linden

A strikingly handsome tree. Leaves are silvery white underneath and green above, giving a silvery sheen to the tree when stirred by a breeze. It is of rapid growth, compact in form, and bears sweet flowers in June which attract bees. Retains foliage two or three weeks longer than other Lindens.

8 to 10 Ft.	3.00	27.00
10 to 12 Ft., 2 to 2½ In. cal.	7.50	
12 to 14 Ft., 2½ to 3 In. cal.	10.00

14 to 16 Ft., 3½ to 4 In. cal.	20.00	
14 to 16 Ft., 4 to 5 In. cal.	30.00	

T. VULGARIS. (70 to 90 ft.) **European Linden**

Fine, large, pyramidal tree with plentiful dark green foliage affording dense shade. Fine for street planting or for lawn specimens as the low branches form a canopy.

	Each	Ten
10 to 12 Ft., 1½ to 1¾ In. cal.	4.25	
10 to 12 Ft., 1¾ to 2 In. cal.	5.00	
12 to 14 Ft., 2 to 2½ In. cal.	7.00	
12 to 14 Ft., 2½ to 3 In. cal.	8.50	

ULMUS — ELMS

ULMUS MOLINI. (80 to 100 ft.) **Moline Elm**

A handsome Elm of broad, conical outline, compact growth with straight leader and excellent, large foliage. Fine, stately trees that lend themselves to street planting or as accent points on estates. Transplants well and prefers good and rather moist soil. Ideal wherever tall conical effect is desired.

12 to 14 Ft., 2 to 2½ In. cal.	5.50	50.00
12 to 14 Ft., 2½ to 3 In. cal.	7.00	63.00

DECIDUOUS FLOWERING SHRUBS

At all seasons of the year, the Flowering Shrubs fascinate and delight the gardener. An astonishing variety of color, form, foliage and flowers supply an abundant source of garden subjects. The smaller varieties are useful in foundation plantings. The taller kinds when grouped in masses are most effective and many other uses as screen for unsightly objects, as windbreaks, as hedges, as single specimens or for their resplendent and brilliant berries.

AMELANCHIER CANADENSIS.

Downy Shadblow

A welcome sight early in Spring with its profusion of showy, white flowers. A distinct and picturesque shrub. Its fruit is relished by the birds.

	Each	Ten
3 to 3½ Ft.	1.00	9.00

AZALEAS, DECIDUOUS AND NATIVE

AZALEA ALTA CLAIRENSIS. Altaclaire Azalea

Deep orange flowers changing to bright yellow borne in large trusses. Blooms May 10 to 20. A hardy variety. Single flowers.

15 to 18 In. B&B	3.25	30.00
1½ to 2 Ft. B&B	4.00	36.00
2 to 2½ Ft. B&B	6.00	54.00

A. ARBORESCENS.

Tree Azalea

A native variety. Semi-double flowers white, flushed pink and fragrant. Blooms June 5 to 15.

2 to 2½ Ft. B&B	3.50	31.00
3 to 4 Ft. B&B	6.50	60.00

A. CALENDULACEA.

Flame Azalea

A native variety, one of the most brilliant flowering shrubs. Flowers are salmon to deep scarlet-orange. Single. Blooms May 20 to 30.

2 to 2½ Ft. B&B	3.50	31.00
3 to 3½ Ft. B&B	5.50	50.00
4 to 4½ Ft. B&B	10.00	

A. MOLLIS.

Chinese Azalea

Varies in shades of yellow, salmon, red and orange. Thrives under average garden conditions and treatment. Plant as a border for large shrub arrangements, or as an undergrowth treatment among tall trees. Blooms May 10 to 20. Single flowers.

12 to 15 In. B&B	1.90	17.00
15 to 18 In. B&B	2.75	24.00
3 to 3½ Ft. B&B heavy specimens	10.00	
(140 to 170 flower buds)		

AZALEA MUCRONULATA

A. MUCRONULATA.

Dahurian Azalea

In early Spring, before leaves appear the shrub is covered with frilled violet-rose flowers, crepe-like in texture. Effective when planted as a companion to Forsythia. Blooms about April 1. Single flowers.

	Each	Ten
1½ to 2 Ft. B&B	2.75	25.00
2½ to 3 Ft. B&B	4.25	40.00

A. NUDIFLORA.

Pinxterbloom Azalea

A native variety originating in China. Free flowering, producing an abundance of single, showy flowers varying from white to pink. Occasionally red striped blooms are to be seen. Blooms about May 10 to 20.

15 to 18 In. B&B	1.90	17.00
2 to 2½ Ft. B&B	3.50	31.00
3 to 3½ Ft. B&B	6.00	

A. PONTICA.

Pontica Azalea

Mixed unnamed hybrids. These hardy Ghent Azaleas, have always been popular. The lustrous young leaves are covered with silky hair, and in autumn turn a dull red and brown. They bloom about May 15 to 20. In all the shades from pure white and yellow to deepest crimson. Flowers usually single, some semi-double. Planted with Rhododendrons, they create a fine effect; for best results they should be treated similarly.

15 to 18 In. B&B	2.50	20.00
2 to 2½ Ft. B&B	4.50	41.00

AZALEA ROSEA.	Downy Pinxterbloom

Low-growing, many-branched shrub of bushy, compact habit. Light green foliage, blue underneath. Yellow flowers in April.

2 to 2½ Ft.	-----	2.25
3 to 4 Ft.	-----	4.00

C. SPICATA. **Flowering Hazel**

Bright yellow flowers in April. Blue-green foliage. Most attractive in early spring.

1½ to 2 Ft.	-----	2.50
2½ to 3 Ft.	-----	3.50

COTONEASTER

In recent years, these useful and beautiful shrubs are finding an increased popularity. Originally introduced from China, the habits of the many varieties range from low, spreading types to tall, bold, upright shrubs. The flowers are usually inconspicuous. The grace and beauty of the branches, and the arrangement of leaves make them attractive. In Autumn, the red and black colored fruits are showy and cling to the shrubs for a long time.

They are ideal subjects for the rock garden, for covering terraces, or for the shrub border. They will thrive in any well-drained garden soil. Avoid planting in a shady or moist location. To insure transplanting success, we advise using only pot-grown plants.

C. DIVARICATA. (4 to 6 ft.)

Spreading Cotoneaster

A handsome, upright shrub with pink flowers in June. Glossy dark green leaves and bright red fruit from September through the winter. Foliage a pleasing crimson in fall.

	Each	Ten
10 to 12 In. potgrown80	7.00
12 to 15 In. potgrown	1.00	9.00
1½ to 2 Ft. potgrown	1.50	13.50

C. FRANCHETI. (6 ft.) Franchet Cotoneaster

Upright, dense shrub with spreading branches. Foliage gray white beneath. Small pink flowers in June; red fruit in September.

12 to 15 In. potgrown80	7.00
-----------------------------	-----	------

C. HARROVIANA. (6 ft.)

A semi-evergreen shrub similar to Francheti.

12 to 15 In. spread, potgrown	1.00	9.00
-------------------------------------	------	------

C. HORIZONTALIS.* (2 to 3 ft.)

Rock Cotoneaster

A low growing, almost evergreen dwarf variety with flat, prostrate branches. The leaves are box-like, and the whole plant is studded along the stems with miniature, rosebud-like, pink flowers in spring. The flowers are followed by small brilliant red berries in autumn that cling most of the winter.

6 to 8 In. spread, potgrown60	5.40
8 to 10 In. spread, potgrown75	6.50

C. MICROPHYLLA. (1½ to 2 ft.) Rockspray

A dwarf shrub with small shiny leaves, longer than those of the Horizontalis. Hairy underneath. Pretty white flowers in June are followed by showy scarlet berries. Excellent for the rock-garden.

8 to 10 In. potgrown85	7.50
10 to 12 In. potgrown	1.00	9.00

C. MICROPHYLLA GLACIALIS

(PROSTRATA)

Prostrate Cotoneaster

A prostrate variety, rarely growing higher than 12 to 18 inches with arching branches and dark leaves. The flowers are white, sometimes tinged pink with small red fruit. Excellent for the rock-garden.

6 to 8 In. spread, potgrown75	6.50
8 to 10 In. spread, potgrown	1.00	9.00
10 to 12 In. spread, potgrown	1.25	11.00

C. MICROPHYLLA THYMIFOLIA. (2 to 3 ft.)

Thyme Rockspray

The smallest leaved of the Cotoneasters. The dark green foliage is much smaller than Microphylla. Small red fruit stays until mid-

	Each	Ten
6 to 8 In. potgrown75	7.00
8 to 10 In. potgrown	1.00	9.00

C. PROCUMBENS.

A dwarf Cotoneaster for the rock-garden. Hardy. Dark green foliage and attractive fruit. A rare variety.

6 to 8 In. spread, potgrown75	6.50
8 to 10 In. spread, potgrown90	8.00

C. RACEMIFLORA VEITCHI (SOONGARICA).

(4 to 5 ft.)

Coral-fruited Cotoneaster

A shrub with erect or spreading branches. The oval leaves are gray-white beneath and glabrous above, giving this variety a character of its own. Beautiful red fruit borne abundantly ranks it one of the best and most attractive of the Cotoneasters.

12 to 15 In. potgrown	1.10	10.00
-----------------------------	------	-------

C. ROTUNDIFOLIA. (1½ to 2 ft.)

Round-leaf Cotoneaster

From the Himalayas comes this prostrate, semi-evergreen shrub small, round green foliage reminding one of Boxwood. The red, pea-size, berries in autumn adhere closely to the branchlets. A pleasing bronze fall color.

12 to 15 In. potgrown75	7.00
15 to 18 In. potgrown90	8.00

C. SALICIFOLIA FLOCCOSA. (6 to 8 ft.)

Graceful Willowleaf Cotoneaster

A semi-evergreen shrub, graceful in habit. May grow 6 to 8 ft. Small, bright green and glossy foliage. Loaded with clusters of bright red berries in the fall. Excellent in groupings or for the shrub border.

8 to 10 In. potgrown85	7.50
10 to 12 In. potgrown	1.00	9.00

CORYLUS AVELLANA ATROPURPUREA.
Purple-leaved Filbert

This variety has red foliage in early spring, changing to dark purple in the fall. A pleasing contrast when used with other shrubs.

	Each	Ten
2 to 3 Ft.	2.00	18.00
3 to 4 Ft.	2.50	22.50

CYDONIA
FLOWERING QUINCE

Flowering Quinces are attractive with their twisted spiny branches and showy flowers in early spring.

C. JAPONICA.

Blooms May 1, revealing brilliant scarlet flowers all over the plant. A dazzling sight. Called "Burning Bush" in some parts of the country.

1½ to 2 Ft.50	4.50
------------------	-----	------

C. JAPONICA ROSEA.

A pink variety, blooming about May 10. Some of the flowers are semi-double.

2 to 3 Ft.	1.50	13.50
-----------------	------	-------

DEUTZIA

Well known, handsome flowering shrubs, bushy in habit and useful for many purposes. They are easy to grow, yield masses of showy flowers and flourish in any well-drained soil. They harmonize well with other shrubs and are quite effective in the garden and border planting.

D. SCABRA CRENATA FL. PL.

Double Pink Deutzia

The flowers are double, pinkish-white, produced in 5 inch spikes.

2 to 3 Ft.50	4.50
-----------------	-----	------

D. SCABRA, PRIDE OF ROCHESTER.

Large-flowered Deutzia

A profuse bloomer. Large double white flowers, tinged pink, about June 10.

3 to 4 Ft.60	5.50
-----------------	-----	------

ENKIANTHUS CAMPANULATUS.

(10 to 12 ft.) Redvein Enkianthus

A choice shrub of Chinese heritage, of erect growth and highly ornamental effect attaining a height of 10 to 12 ft. Flowers in May. Small bells on short drooping racemes of yellow or pale orange with darker veins. Rich green foliage turns a brilliant red in autumn. They grow best in a well-drained soil. Fine among broadleaved evergreens.

1½ to 2 Ft. B&B	2.25	20.00
4 to 5 Ft. B&B	5.00	
5 to 6 Ft. B&B	7.00	
6 to 8 Ft. B&B	12.50	

E. PERULATUS (JAPONICUS). (5 to 6 ft.)

White Enkianthus

Bushy and compact in habit, rarely exceeding 6 ft. in height. Same type flower and brilliant red fall coloring of Campanulatus.

15 to 18 In. B&B	2.00	18.00
------------------------	------	-------

DAPHNE MEZEREUM. (4 to 5 ft.)

February Daphne

A small hardy shrub. Blooms in March before the leaves appear. Clouds of deep red flowers appear closely along the stem and have a delightful penetrating fragrance.

	Each	Ten
Attractive scarlet fruit.		
1½ to 2 Ft.	1.25	11.00
2½ to 3 Ft.	1.90	17.00

EUONYMUS

A versatile plant group composed of shrubs or small trees, root climbers, or creepers.

E. ALATUS. (6 to 8 ft.) Winged Euonymus

Its cork-winged branches are interesting in brilliant red fall coloring. Creates a bold effect.

2 to 3 Ft.60	5.00
5 to 6 Ft. specimens B&B	3.75	35.00

E. ALATUS COMPACTUS. (4 to 5 ft.)

Dwarf Winged Euonymus

Dwarf form of Alatus.

2 to 3 Ft.75	7.00
4 to 5 Ft. specimens B&B	3.75	

EXOCHORDA GIRALDI WILSONI.

(10 to 12 ft.) Wilson's Pearl Bush

The showy white flowers in May are nicely balanced with thin bright green foliage. A slender branched shrub.

3 to 4 Ft.	1.25	11.00
-----------------	------	-------

FORSYTHIA INTERMEDIA SPECTABILIS.

Showy Border Forsythia

Bears a profusion of bright yellow flowers in April before the leaves unfold.

4 to 5 Ft.70	6.00
5 to 6 Ft.80	7.00

FOTHERGILLA MAJOR. Large Fothergilla

A hardy, densely branched shrub, little known. Bears fragrant white flowers in early summer and displays brilliant autumn foliage.

2 to 2½ Ft.	2.00	18.00
------------------	------	-------

FRANKLINIA ALATAMAHA (GORDONIA).

See Page 22.

HAMAMELIS JAPONICA. (20 to 30 ft.)

Japanese Witch-Hazel

Yellow flowers. The earliest to bloom of the shrubs. They appear in January, if weather is not too severe.

2 to 3 Ft.	1.50	13.50
-----------------	------	-------

H. MOLLIS. (15 to 20 ft.) Chinese Witch-Hazel

Excellent for heavy foliage and strong masses attaining 30 ft. One of the few true winter blooming shrubs in northern latitudes. The best of the group.

2 to 3 Ft.	2.00	18.00
4 to 5 Ft.	3.00	27.00

H. VERNALIS. (6 to 8 ft.) Vernal Witch-Hazel

Pale yellow, small, fragrant flowers appear in January.

1½ to 2 Ft.	1.25	11.00
3 to 4 Ft.	1.75	16.00

HAMAMELIS VIRGINIANA. (10 to 12 ft.)
Witch-Hazel

Fine for fall effects. The fringed light yellow flowers improve a mass planting. They are in full bloom in November.

	Each	Ten
3 to 4 Ft. _____	.90	8.00
5 to 6 Ft. _____	1.50	13.50

HYDRANGEAS

H. HORTENSIS BLUE. Blue Hydrangea

The Blue Hydrangea often seen in northern gardens. Blooms appear on the new shoots of the current year, consequently requiring no special care beyond a yearly fall mulch.

To the lover of blue flowers, this is one of the finest shrubs. Great heads of blue flowers create a spectacular, yet pleasing effect.

Strong potgrown plants _____	1.50	13.50
Plants in 14 In. tubs _____	2.75	25.00

HYDRANGAEA ACUMINATA

H. ACUMINATA.

A desirable, hardy, narrow and upright shrub. Generally planted in a shrub border. Blue flowers.

2 to 2½ Ft. B&B _____	2.00	18.00
2½ to 3 Ft. B&B _____	2.50	22.50

H. OPULOIDES MARIESI. (3 to 4 ft.)

Dark blue flowers from August 1 to October. Blooms on the new shoots of the current year.

Extra fine plants _____	1.50	13.50
-------------------------	------	-------

H. PANICULATA GRANDIFLORA.

Peegee Hydrangea

Everybody knows this variety with its great panicles of white flowers which eventually turn pink. July-August.

2 to 3 Ft. _____	.60	5.00
Standards _____	1.50	

ILEX VERTICILLATA. (7 to 8 ft.)
Common Winterberry

Also known as "Black Alder." A shrub with clusters of small white flowers in May followed by bright scarlet holly-like berries. A highly decorative shrub. While they prefer a moist soil they will grow well in any location except dense shade.

	Each	Ten
2 to 3 Ft. _____	.80	7.00

For other Ilex, see Broad-leaved Evergreen Shrubs, pages 14 and 15.

KERRIA JAPONICA. (7 to 8 ft.) Single Kerria

The smooth green branches provide a pleasing winter effect. The clear green foliage is nicely cut. Yields an abundance of rose-shaped, yellow flowers from June to October.

3 to 4 Ft. _____	1.25	11.00
------------------	------	-------

K. JAPONICA FL. PL. Double Kerria

Called "Double Kerria" because the clustered petals form a ball. Rich golden flowers in summer and fresh green stems in winter.

2 to 3 Ft. _____	.90	8.00
------------------	-----	------

KOLKWITZIA AMABILIS. (7 to 9 ft.)
Beauty Bush

A recent introduction from Asia. Closely related to the Abelia. In early June it is a mass of arching sprays of pale pink, tubular flowers, somewhat deeper colored when in bud. Slender branches and healthy, medium-sized foliage. A perfect shrub.

3 to 4 Ft. _____	1.25	11.00
------------------	------	-------

LESPEDEZA FORMOSA. (Desmodium penduliflorum). (8 to 10 ft.) Purple Bush Clover

Although it may freeze to the ground it will renew itself in spring and become a handsome, graceful shrub. In late summer it is covered with lovely, purple, pea-like flowers, on pendulous branches.

15 to 18 In. _____	.60	5.00
--------------------	-----	------

LIGUSTRUM IBOTA REGELIANUM. (True Spreading Type). (5 to 6 ft.) Regel's Privet

Splendid, dense shrub with horizontal branches. White flowers; black berries. A graceful and attractive shrub.

1½ to 2 Ft. _____	.50	4.50
-------------------	-----	------

L. OVALIFOLIUM. (12 to 15 ft.)
California Privet

Vigorous shrub of excellent habit. Large, glossy, dark green foliage. One of the most popular hedge plants. Rugged and enduring in almost any location; retains its foliage until late winter.

	Each	Ten	100
2 to 3 Ft. _____		.80	7.00

LONICERA FRAGRANTISSIMA. (6 to 8 ft.) **Fragrant Honeysuckle**
 A beautiful almost evergreen shrub, with fragrant, yellow-white flowers appearing before the leaves. Bright red berries. Each Ten
 3 to 4 Ft. .80 7.00

L. MAACKI PODOCARPA. (8 to 9 ft.) **Late Honeysuckle**
 Smaller, pinkish flowers, better fruit than the variety Maacki and holds leaves longer. Red fruits.
 2 to 3 Ft. .75 6.00
 3 to 4 Ft. .85 7.50

L. SYRINGANTHA. (4 to 5 ft.) **Lilac Honeysuckle**
 Valuable and rare shrub with slender trailing branches and dull blue green-leaves. Flowers pale rosy-lilac. Fragrant. May and June. Red fruit.
 2 to 3 Ft. .80 7.00

MALUS FLOWERING CRAB APPLES

M. ATROSANGUINEA. (12 to 15 ft.) **Carmine Crab**
 About May 5 the well-formed head of the shrub is covered with clusters of dark pink and carmine flowers. A handsome lawn specimen.
 4 to 5 Ft. 1.75 16.00
 6 to 8 Ft. 3.50 31.00
 8 to 10 Ft. B&B 6.50

M. FLORIBUNDA. (12 to 15 ft.) **Japanese Flowering Crab**
 About May 5, a glorious sight with its contrasting pink buds and white flowers. Yellow fruits.
 3 to 4 Ft. 1.50 13.50
 4 to 5 Ft. 1.75 16.00
 6 to 8 Ft. 3.50 31.00

M. HALLIANA PARKMANI. (10 to 12 ft.) **Parkman Crab**
 Semi-double, rosy red flowers on long, thin stems. At their best early in May. Slow growing.
 4 to 5 Ft. 2.50 22.50
 5 to 6 Ft. 3.50

M. IOENSIS FL. PL. (12 to 15 ft.) **Bechtel Crab**
 A robust round-headed shrub, bearing large, double pink flowers resembling roses. Fragrant flowers appear after the others have quit blooming. May 15 to 25.
 3 to 4 Ft. 1.90 17.00
 5 to 6 Ft. 3.00 27.00

M. NIEDZWETZKYANA. (12 to 15 ft.) **Red-vein Crab**
 The entire shrub is suffused with a reddish purple tint, including the bark, leaves, and flower. May 10 to 20.
 4 to 5 Ft. 1.75 16.00
 6 to 8 Ft. 3.50 31.00
 10 to 12 Ft. B&B 8.50

MALUS SARGENTI. (8 to 10 ft.) **Sargent Crab**
 Useful shrub for the small garden. Covered with clear white flowers. Small dark red fruit. Very hardy. May 5 to 15. Each Ten
 4 to 5 Ft. 2.50
 6 to 8 Ft. 4.50

M. SCHEIDECKERI. (12 to 15 ft.) **Scheidecker Crab**
 Large, double bright pink flowers of lasting quality. May 5 to 15. A great profusion of waxy yellow fruits later. Pyramidal shape.
 4 to 5 Ft. 1.75 16.00
 6 to 8 Ft. 3.50 31.00
 10 to 12 Ft. B&B 8.50 78.00

M. SPECTABILIS. (12 to 15 ft.) **Chinese Flowering Crab**
 The first of the Asiatic Crab Apples brought to America from England in 1780. Fragrant, delicate pink flowers, appearing about May 10, are semi-double and double. Fruit pale yellow.
 4 to 5 Ft. 1.75 16.00
 8 to 10 Ft. B&B 6.50 60.00

M. THEIFERA. (15 to 18 ft.) **Tea Crab**
 A handsome and scarce variety with fragrant, clear pink flowers and beautiful waxy fruit with crimson cheeks. One of the very choicest. May 5 to 15.
 4 to 5 Ft. 2.50 22.50
 6 to 8 Ft. 4.50 41.00

PHILADELPHUS MOCK ORANGES

The Mock Oranges are beautiful, hardy shrubs. Most varieties are fragrant, with good-sized, single or double flowers. Foliage is strong and usually free from insect attack. They will grow in sun or semi-shade.

P. CORONARIUS. (8 to 10 ft.) **Sweet Mock Orange**
 This old fashioned "Sweet Syringa" is grown almost everywhere because of the sweet fragrance of its single, creamy white flowers, in May or June. Gracefully arching branches, vigorous grower, and prolific bloomer. One of the best.
 3 to 4 Ft. .75 6.50
 4 to 5 Ft. .90 8.00

P. GRANDIFLORUS. (7 to 8 ft.) **Big Scentless Mock Orange**
 A vigorous popular variety with fine foliage. Flowers are much larger than ordinary varieties. Creamy white and showy. A prolific bloomer with spreading branches.
 3 to 4 Ft. .75 6.50
 4 to 5 Ft. .90 8.00

P. NIVALIS. (8 to 9 ft.) **Snowbank Mock Orange**
 Snow white, single flowers in great profusion. A vigorous grower, with brown branches. A fine shrub.
 3 to 4 Ft. .75
P. VIRGINAL. **Virginal Mock Orange**
 Immense, fragrant, double white flowers. One of the best Mock Oranges.
 2 to 3 Ft. .75

POLYGONUM AMPLEXICAULE RUBRA.
(4 to 6 ft.) **Mountain Fleeceflower**
Like all Polygonums, it is of easy culture and will grow well in any soil. Reaching a height of above 4 feet, it can be used in the perennial or shrubbery border, or in small groups. Foliage decorative, pendulous racemes of red flowers. An attractive September shrub. Hardy. Each Ten
Strong potgrown plants75 6.00

POTENTILLA FRUTICOSA.* (2 to 4 ft.)
A dwarf shrub with peculiar shreddy bark. Showy, bright yellow flowers.
12 to 15 In.50

PRUNUS

FLOWERING JAPANESE CHEERIES, PLUMS, ALMONDS

Generally included among Flowering Cherries are these attractive, early flowering hardy shrubs, smaller in growth, yet resembling the taller-growing Japanese Cherries.

P. GLANDULOSA ALBO-PLENA. (5 to 6 ft.)
Double White Flowering Almond
Usually seen in old-fashioned gardens in early spring covered with little, double white chrysanthemum-shaped flowers. May 1 to 10.
2 to 3 Ft.90

P. GLANDULOSA ROSEO-PLENA. (5 to 6 ft.)
Double Pink-flowering Almond
Similar to Albo-Plena with double pink blossoms. May 1 to 10.
2 to 3 Ft.90

P. TRILOBA PLENA. (6 to 8 ft.)
Double Flowering Plum
Vigorous grower, every branch bearing double pink flowers an inch in diameter, early in May.
2 to 3 Ft.75 6.50
3 to 4 Ft. 1.00 9.00

For Other Flowering Cherries, see Deciduous Trees on Page 25.

RHUS COTINUS. (10 to 12 ft.)
Common Smoke Tree
Sometimes called "Purple Fringe Tree." Feathery, smoke-like blossoms in June.
2 to 3 Ft.90

SALIX CAPREA. (15 to 20 ft.)
Goat or European Pussy Willow
Leaves rather broad, light green covered with hairs, white on the undersurface; opening catkins or flowers very conspicuous in early spring; small tree or large bush with ascending branches.
3 to 4 Ft.75 6.00
4 to 5 Ft.90 8.50

SOPHORA VICIIFOLIA. (5 to 6 ft.)
Vetchleaf Sophora
A most attractive shrub with leaves like the vetch. Violet blue, pea-shaped flowers in clusters like Wisteria.
2 to 3 Ft. Each Ten
..... 1.25 11.00

SPIREA PRUNIFOLIA FL. PL. (7 to 8 ft.)
Bridal Wreath
Shining, dark green foliage, turning orange in fall. Small, double white flowers borne close to the branches, appearing in May before the foliage, forming long snow-white garlands. A popular variety, excellent for mass grouping.
2 to 3 Ft.65

S. REEVESIANA. (7 to 8 ft.) **Reeves' Spirea**
A shrub of drooping habit, covered in May with masses of single white flowers. Retains its dark green leaves into the winter. A tall variety. May 15 to 25.
2 to 3 Ft.50

S. VAN HOUTTEI. (8 to 9 ft.)
Van Houtte Spirea
The finest and hardiest of the Spiraeas. A graceful, pendulous bush, that surpasses all other Spiraeas with its superb beauty and grace. The flowers form flat globular clusters of one inch or more across, of pure white on spreading arching branches, often hanging to the ground. They retain the attractive green foliage till late fall.
2 to 3 Ft.50 4.50

STEWARTIA—See Page 27.

SYMPHORICARPOS CHENAULTI. (6 to 8 ft.)
Chenault Coralberry
This shrub is at its best when its slender branches are weighed down with bunches of red fruits, which last until winter.
2 to 3 Ft.60

TAMARIX HISPIDA AESTIVALIS RUBRA.
Summer Glow
A lovely new bright wine-red form of the popular summer-flowering Aestivalis that arrests immediate attention, the handsome flowers contrasting well with the graceful gray-green foliage. This new variety has all the desirable qualities of its parent, including great profusion of bloom at a time when there is a dearth of color in the shrubbery border. This sort, like other varieties of Tamarix, is well adapted to planting at the seashore, being tolerant of salt air and winds. Flowers and foliage are excellent for cut-flower work.
2 yr. plants 1.00 8.50

TRIPTERYGIUM REGELI. (4 to 5 ft.)
Shrub with angled, warty, red-branches and green-white flowers. Brown, winged fruit.
1½ to 2 Ft.75

VIBURNUM CARLESI

VIBURNUM CARLESI. Fragrant Viburnum

Large heads of waxy white flowers tinted rose and delightfully fragrant. Bushy habit with wider spread than height. May 15 to 25.

	Each	Ten
1½ to 2 Ft.	1.25	
2 to 2½ Ft.	1.75	16.00
3 to 4 Ft.	2.75	24.00

V. DILATATUM. (8 to 10 ft.) Linden Viburnum

A highly decorative free-flowering shrub bearing 6 inch clusters of pure white flowers in May and June, followed by scarlet berries which stay all winter. Handsome, coarsely toothed, bright green foliage.

2 to 3 Ft.75	7.00
3 to 4 Ft.	1.00	9.00

V. MACROCEPHALUM. (5 to 6 ft.) Chinese Viburnum

Enormous clusters of white flowers in May. Leaves long and finely toothed. Choice and rare.

3 to 4 Ft. specimens B&B	6.00
--------------------------------	------

V. OPULUS NANUM.* (1½ to 2 ft.) Dwarf Cranberry

Seldom bears flowers, yet very useful as edging about flower beds. Forms a dense globular bush.

	Each	Ten	100
4 to 6 In.35	3.00	25.00
6 to 8 In.45	4.00	35.00
10 to 12 In.65	5.80	

V. SIEBOLDI. (8 to 10 ft.) Siebold's Viburnum

Long, thick leaves of glossy green on stout branches. Panicles of white flowers. Pink fruits change to black.

	Each	Ten
2 to 3 Ft.70	6.00
3 to 4 Ft.80	7.00

V. WRIGHTII. Wright Viburnum

A native of Japan. Upright nature. The scarlet fruits are attractive.

2 to 3 Ft.80	7.00
3 to 4 Ft.	1.00	9.00

VITEX MACROPHYLLA. (4 to 5 ft.)

Bigleaf Lilac Chaste Tree

A small shrub. Bears blue flowers in September, contrasting well with large gray-green leaves. Likes a sunny location.

	Each	Ten
2 to 3 Ft.75	6.00

WEIGELA EVA RATHKE. (4 to 5 ft.)

Bears dark carmine-red flowers on short branches from June to August.

2 to 2½ Ft.70	6.00
------------------	-----	------

W. ROSEA. (6 to 8 ft.)

Pink Weigela

The common pink Weigela, much used for landscape work. Handsome rose-colored flowers about the end of May.

2 to 3 Ft.55	5.00
-----------------	-----	------

XANTHOCERAS SORBIFOLIA. (3 to 4 ft.)

Handsome shrub. Bears erect trusses of white flowers dotted with red and yellow; foliage especially beautiful.

15 to 18 In.	2.00	18.00
-------------------	------	-------

ZENOBIA PULVERULENTA. Dusty Zenobia

A glance through horticultural works reveals an interesting reference to Zenobia, Queen of Palmyra, who lived during the third century and for whom this little known shrub is named. A rare shrub of unusual merit. Produces a multitude of waxy white flowers on the underside of the spreading shoots. The light green, oval leaves are covered with a waxy film. When protected it is almost evergreen. Grows 3 to 4 ft.

12 to 15 In. B&B	1.50	13.50
1½ to 2 Ft. B&B	2.50	22.50

ZENOBIA PULVERULENTA

ESPALIER DWARF PEAR TREE

TRAINED FRUIT TREES (ESPALIER)

Generally planted against walls or fences, these decorative fruit trees utilize space that might otherwise be wasted.

We will gladly send you a list of these Trained Apple and Pear Trees.

GREENHOUSE GRAPEVINES

BLACK HAMBURG. Large, rich juicy berries. Fine for pot forcing or border planting.

MUSCAT of ALEXANDRIA. Of the finest flavor, pale amber, when ripe.

FOSTER'S SEEDLING. Large white, sweet, richly flavored berries. Of easy culture, a splendid companion to Black Hamburg.

PRICES: Strong fruiting canes in 9" pots. \$6.50 each, \$60.00 for 10.

GROS COLMAN. Black berries of the largest size. A robust grower.

BARBAROSSA. A late variety producing immense bunches of black grapes of exhibition size.

MADRESFIELD COURT. Large black berries of muscat flavor. One of the most popular.

CANNON HALL MUSCAT. Amber berries of richest flavor but of difficult culture.

Pot-Grown FIGS

Hardy in northern New Jersey, if well protected from November 1st to April 1st.

BROWN TURKEY. Medium size, short, thick; color coppery brown; flesh amber to pink; quality excellent. Very prolific. 7 in. pot, 18/24 inches high at \$2.00 each; 8 in. pot, 2/3 ft. high at \$2.75 each.

BRUNSWICK. Large, pear-shaped; dark brown; flesh thick, soft, very good. Late. 7 in. pot, 18/24 inches high at \$2.00 each.

CELESTE. Small to medium; violet color; flesh light to rose at center; juicy, sweet, excellent. Early. 7 in. pot, 18/24 inches high at \$2.00 each; 8 in. pot, 2/3 ft. high at \$2.75 each.

NECTARINES AND PEACHES FOR GREENHOUSE CULTURE

We have a limited quantity of the most popular varieties, field grown. Send for special list.

CLEMATIS LANUGINOSA CANDIDA
(This Illustration is Two-thirds Actual Size)

CLEMATIS, POT-GROWN

*The Most Decorative of All
Climbing Flowering Plants*

Their cultural requirements are simple. They thrive in a sunny place in any ordinarily good garden soil if not too acid. An acid soil condition can be overcome by thoroughly mixing a tablespoonful of ground limestone with the soil that is to be filled in around the roots of each plant. To prevent cracking the brittle bark, as soon as the plants are set they should be tied promptly to their supporting trellis, after which the growth will twine itself. When the plants are established they can be well fertilized and mulched with manure annually with excellent results.

Pruning. Except those marked with an asterisk (*), the following varieties flower in midsummer from the current summer's growth and require little or no pruning. In late March or early April, dead wood and thin, spindly shoots can be cut out and weak growth pruned

back to 2 or 3 pairs of eyes.

The varieties followed by an asterisk (*) flower in early summer from the ripened wood of the previous season's growth. They should be pruned back immediately after flowering.

Cutting back the growth that has just flowered will benefit the new growth, so that vigorous shoots for next season's flowering will develop. These shoots can be thinned out where necessary and the remaining strong shoots tied in, in the fall.

After testing a large number of varieties imported from the most skillful European hybridists, we have concluded the following are outstanding in color, form, vigor, and adaptability to growing conditions in this latitude.

Clematis, Belle of Woking. * Very fine double flowers of soft silvery gray.

C., Crimson King. Vinous-red with chocolate anthers, and two whitish stripes down back of petals.

C., Duchess of Albany. Pink, dark brown center, streaked white on back.

C., Jackmani alba. Very large white flowers.

C., Lady Caroline Neville. Large, pale mauve flowers with darker bars.

C., Lord Neville. Large; plum-color; rich velvety texture.

C., Nellie Moser. Flowers white, tinged pink, with carmine streak. Vigorous.

C., Prince Hendrick. Deep bluish mauve, with a satiny sheen and a fringed edge.

C., William E. Gladstone. Beautiful, large lilac-mauve flowers.

C., William Kennett. Deep lavender. Very large-flowering, splendid variety.

All above Clematis, \$1.50 each. Any 3 varieties, customer's selection, for \$4; any 5 for \$6.

Two Large-flowering Clematis of Exquisite Beauty

It seems as if Nature had intended these two for companions. They accentuate the beauty of each other in perfect color harmony.

Clematis lanuginosa candida. Moderate climber with very large dazzling white flowers and white stamens.

C. Lawsoniana. Bright lavender-blue flowers with darker veins. Perhaps the best of this color.

Above 2 varieties, \$1 each, or the 2 for \$1.75.

Popular Clematis, Pot-Grown

The following large-flowered varieties are popular kinds that have been in cultivation for many years. All of them are very much worth while.

Clematis, Duchess of Edinburgh. * Very large, double, pure white, fragrant flowers. Early.

C., Gypsy Queen. A dark but bright velvety purple.

C. Henryi. * Broad, creamy white flowers of finest form. Early flowering.

C. Jackmani. Probably the best known. Fine violet-purple flowers.

C., Mme. Baron Veillard. Fine satiny pink of excellent size.

C., Mme. Edouard Andre. The deepest pink, almost red.

C., Ramona. Clear light blue flowers in August and September.

C., Ville de Lyon. Bright carmine with deeper edges. Blooms in August and September.

All the above Popular Large-flowering Clematis, 75 cts. each, \$6.50 for 10; any 4 varieties, customer's selection, for \$2.75.

Clematis kermesina. Bright red with light markings toward the center; free-growing; summer and autumn flowering. One of the most dependable varieties we have, and highly recommended. Medium-sized flowers. \$1 each, \$8 for 10.

Small-flowering Clematis

Clematis coccinea (texensis). A low, twining plant with scarlet or carmine flowers. Strong, pot-grown plants, 50 cts. each, \$4.50 for 10.

C. crispa. A slender vine 3 to 4 feet high with showy, purple, bell-shaped flowers, varying lighter. Strong, pot-grown plants, 50 cts. each, \$4.50 for 10.

C. montana rubens. * Vigorous, reaching 20 feet, with pink, anemone-like flowers over a long period. Strong, pot-grown plants, 80 cts. each, \$6 for 10.

C. montana undulata. * Vigorous, with bluish white flowers. Strong, pot-grown plants, 80 cts. each, \$6 for 10.

C. paniculata. Japanese Virgin's Bower. A luxuriant grower and profuse bloomer, with fine foliage. The white flowers are very pretty, fragrant, and resemble snowflakes in late summer.

Each	10
Strong, pot-grown plants.....	\$0.50 \$4.00
2-yr., field-grown plants.....	.40 3.00

C. serratifolia. Large yellow flowers on a woody climber growing to 10 feet. Very free flowering in autumn, and a decidedly handsome plant. 50 cts. each, \$4.50 for 10.

C. Vitalba. Rampant climber to 30 feet. Fragrant white flowers in clusters, July to September. Strong, pot-grown plants, 50 cts. each, \$4.50 for 10.
